THIRD FLOOR NEW COURT HOUSE

This matter was brought to the court's attention through a communication from the head of the Spanish War Veterans. The law governing reads:

"In counties where there is no armory belonging to or under control of State authority, the county courts of such counties, upon written application of the commander of the post of the Grand Army of the Republic or commander of a camp of the United Spanish War Veterans, or president of a Woman's Relief Corps of Chapter of the Ladies of the Grand Army of the Republic, shall allow such post, camp, relief corps or chapter, free of cost to occupy a portion of the court house, or any other public building when such occupancy shall not materially interfere with the occupancy of such building for the original purpose or purposes for which it was intended."

SOUTHERN PACIFIC ROAD ISSUES QUIET ORDERS

Says Certain Noises Must be Made in City Yards, but Asks Minimum

COMPLAINTS AS TO NOISE HEARD

Officials Say That Request Has Been Bulletin to Engineers

The Southern Pacific Company recently issued bulletins to trainmen, in terminal yards, asking them to proceed with their work at night with as little noise as possible. They wish the law observed as to warnings, but they say there is no use in pulling the whistle in a manner that will raise the dead. It is said that accompanying the request was the complaint of a citizen in an Eastern town, sent to railway company, and it is asserted that when Penn Frost, Harry McLaughlan, Chester Alexander and other engineers on the local road, received the documents, they smiled grimly, and handed them over to their firemen for perusal. Hereafter we may expect the main line and Tillamook engineers to put rubber between their couplings, and to muffle their bells, as well as put some gunne sacks in their whistles. The complaint sent out reads as follows:

"It is absolutely necessary, in discharge of his duty day and night, that the engineer of your yard should make his engine ding and dong and fizz and spit and clang and bang and buzz and hiss and wail and pant and rant and yowl and grate and grind and puff and bump and click and clank and chug and moan and hoot and toot and crash and grunt and gasp and groan and whistle and wheeze and squawk and blow and jar and perk and rasp and jingle and twang and clack and rumble and jangle and ring and clatter and yelp and croak and howl and hum and snarl and puff and growl and thump and boom and clash and jolt and jostle and shake and screech and snort and snarl and slam and shake and throb and crack and quiver and rumble and roar and rattle and yell and smoke and smell and shriek like hell?"

If it weren't known that this is an Eastern complaint one might lay it on Hugh Rogers, who lives near the Hillsboro yard.
