

# A Vote For Official Integrity

**E. B. TONGUE**  
FOR DISTRICT ATTORNEY

Not a single person has yet said that E. B. Tongue, district attorney, has failed to vigorously prosecute all proper cases brought to his office. Even his worst enemies admit that he is a thorough and successful prosecutor. His record as district attorney is the best of any in the state. This is admitted by friend and foe alike. Then, why not renominate him. He has saved the county thousands of dollars in costs, and has given the office his best thought and efforts. True, there is a would-be ringster advocating his defeat. The man who has a poor opinion of the Farmers of Equity, the Farmers Union, and who evidently believes that the State Grange has not sense enough to appreciate public affairs, wants Mr. Tongue defeated, and so announces in his personal organ, the Banks Herald. Mr. Tongue has lived here all his life. He is a man of character and influence. He has betrayed no public trust, but on the other hand, has performed his duty at all times. His ability graces the office he holds, and nomination will mean that the prosecuting office in the county will be in good hands when returned. Intelligent, thoughtful voters in the republican party will not be swept off their feet by the vaporing of the Portland importation who comes here to tell voters how they shall exercise their franchise.—Written and published by the Argus—not a paid or solicited advertisement.) His position on the Ballot

**62X E. B. TONGUE of Washington County**  
"Just, Fearless, Vigorous Enforcement of Law"

**GEORGE R. BAGLEY**  
For Circuit Judge

Judge Geo. R. Bagley is one of the real able attorneys of Oregon and combined with his legal ability is the judicial temperament. He has made a success of his practice, and has handled more legal cases than any other attorney in the county. His record since going on the bench has been noted for fairness, acumen and justice. He plays no favorites from the bench, and he should receive the votes of representative republicans all over the county. The fact that the Banks candidate for the legislature advocates his defeat should be enough to give Judge Bagley an overwhelming vote. The chap who has been yelling "ring" and who tells you he will tell who the ring is, makes Supt. B. W. Barnes part the "ring"—Barnes, a noted educator, and the man who has done more to make our school system a success than any ten others—Skeezicks wants Judge Bagley defeated, even after he had, as he says, concluded to let the candidacies for the circuit judgeship speak for themselves. One of the best reasons for supporting Judge Bagley is that this little fellow advocates his defeat. Farmers who believe farmers have some rights should resent this dictation on the part of "Skeezicks."

This abusive legislative candidate and publisher has vilified and attempted to belittle every candidate on the ticket except those for whom he contends. His cheap vilification should have its reward by an avalanche of votes in favor of the candidates whom he attacks. The intelligence of republican voters has long been insulted by this importation from Portland who goes into the Rose City and tells them how he is telling the "farmers" where to head in.—Article written, edited and published by the Argus. Not a paid adv. His position on the Ballot.

**47X GEO. R. BAGLEY of Washington County**
