Did Judge Hook get the hook or did he get hooked?

President Wilson can now take up the suffragette picket affair and the German situation, the strike being in the discard.

The Supreme Court Monday decided the Adamson law was and is constitutional. This settles the great railroad hour and wage controversy. The railway owners must have had a tip Saturday night that the Court had decreed the law valid, for they sent word they would accept the Adamson law as the basis of settlement. They then had the big press tell us that they did this through patriotism. Sure. Patriotism after Judge Hook was given the hook! Just for speculation—Judge Hughes said on the stump that the law was not constitutional. Suppose he had been on the bench instead of Brandies—the Adamson law would have received its congenial and this supposition would leave the big question still up in the air.

Judge Reasoner Monday heard the case of the State versus Merl Ramsey, aged 17, and Edward Haak, aged 16, charged with burglarizing the Bernards Book Store, at Forest Grove. The boys entered the building and stole a lot of knives and jewelry, and cached their loot in a box which was hidden in a vacant lot. The boys admit the offense, but denied the theft of some knives that had been stolen from another store, the cutlery being with the articles stolen from the Bernards place. The Court sat as juvenile judge, and Benton Bowman prosecuted the case. The boys were sentenced to the Industrial School, but are paroled to the sheriff, and are to report every month. Any infraction of the law will mean that the paroles will be revoked. They are also to pay the costs of the suit to the county, sheriff's expenses and all, and then the parole will be in force.

Ivanhoe Lodge K. of P. of Portland, will leave Portland for Forest Grove, Saturday night, on a special train, and their rank team will knight several candidates. The uniform rank will attend from Hillsboro, and will lead the delegation from the depot to the hall. Many others will also attend, not only from here, but from other points in the county. Ivanhoe is supposed to have some of the best talent in the state, and the visit is looked forward to with much pleasure by the followers of Damon and Pythias.

The C. H. Wheeler logging outfit at Cochran started operations again this week, and the plant will have two hundred men as soon as the weather clears enough to give stability. The Wheeler sawmill, with 200,000 capacity, starts up this week for a Summer's run, after being idle two years. A special car, containing employees of the Du-Bois Lumber Co., back in South Carolina, landed in Wheeler last week, and will take employment in the mill. This will mean big things for Wheeler.

L. J. Rushlow recently received a letter from his brother, an engineer running out of Minneapolis. He says that there has been unprecedented weather there late this Spring, and that the Winter has given them a snowfall of 61 inches, all of which is at present on terra firma. Trains were stalled in drifts as late as March 12—and mercury stood 12 below on that date. It snowed 22 inches in 24 hours at Duluth, north of Minneapolis.

Chas. T. Bigelow has been appointed special salesman for the American Aluminum Man'g Co. of Lamont, Ill., a firm which makes over 400 different kitchen articles. He has some beautiful pieces to give away, and every article he sells is warranted for 20 years steady use. Mr. Bigelow has been a resident of this and Multnomah counties for 25 years, and bears a record for integrity beyond reproach.
