

For Better Shooting--

A MAN is so busy these times that when he does get a couple of days' hunting or an afternoon at the traps, he is looking for action.

He wants to be sure about his gun—and that is one great reason why everybody speaks so highly of the Remington UMC Pump Gun and Autoloading Shotgun.

And in shells, you will get Remington UMC results only from Remington UMC Smokeless "Arrow" and "Nitro Club," the steel lined "speed shells"—and in black powder, the old established "New Club."

Frank Imbrie, of Orenco, was in the city Tuesday. He has finished his threshing and came in to get a permit to burn his slashing, but found that none was to be granted until after the rains. It is to be hoped that this order will be rescinded, as many have cleared land this year, and after the rains once start it is mighty hard to get a clean burn. With care, and some help, slashings can be burned with no damage.

RED CROSS

Every member of the Red Cross in Hillsboro is requested to attend the meeting at headquarters next Tuesday evening, at 8 o'clock. Matters of importance in connection with the organization will be discussed and much new business transacted.

There are now three life members and 580 members in the Auxiliary, and among the latter number are many \$2 and \$5 members, which is surely a good showing considering the short time of existence. Every cent of the fees has been transmitted to Portland to be placed at the disposal of the American National Red Cross.

With the coming of Autumn, and fresh enthusiasm for the work, it is desired to forge ahead and secure 1000 or more members, do a larger amount of work and justify our talk of patriotism by doing more than "our bit," thus making up for those who cannot or will not work.

The knitting class will resume work next Wednesday afternoon, and as there has been a call for knitted socks, the yarn will be provided for all who are willing to knit.

North Plains committee will meet the first and third Thursdays of the month at the K. P. Hall.
