Ray Emmott lost one of his best deer hounds, "Queen," the other evening. The hound was struck by an auto, on the Dairy Creek bridge. Emmott had been over on the Beer place, trying to trail a cougar that had been seen in the pasture. Ray wouldn't have taken \$100 for her.

Fred S. Olsen, wife and daughter have returned from a month at Waldport, in Benton County. Fred has been as busy as a sawyer, fishing, catching crabs, and running a motor boat, and he comes home with a sprained wrist from lifting out the big fish. He took his mail run out this week on Route 4.

Alice B. Thomas has sued Earl C. Thomas for divorce, alleging that the husband has used profane language to her many times, and called her vile names. She says she was forced to leave him in February, 1915, and work in a laundry to support her son, 6 years of age, and that the husband since that time has contributed little to their support. They have been married since July, 1910, and their nuptials were celebrated at Forest Grove.

Wm. A. Goodin, of James, was the recipient of a couple of broken ribs last Sunday. He had gone the Chris. Jensen farm, above Forest Grove, to look at a Guernsey bull. His bullship somehow took a dislike to Wm., and the animal attacked him, with almost fatal results. Only for Goodin's presence of mind in grabbing hold of the nose-ring he might have been gored or trampled to death. Dr. Robb attended the injuries and Mr. Goodin expects to be out in a day or so.

FOOD COMMISSIONER QUOTES THE STATUTE

Tuberculin Test Demanded by Last Legislature

MILK TO BULK BUYERS NOT INCLUDED

Up to Condensers and Creameries to Pasteurize

J. D. Mickle, State Food Commissioner, writes the Argus as follows, relative to the new milk law:

"Editor: Would you do me the favor and your subscribers a service by allowing me space in your valuable columns to place before your readers the exact text of the law which is known as Chapter 332 of the General Laws of 1917; Section 2 of which reads as follows:

"That from and after Sept. 1, 1917, it shall be unlawful for any person, firm, company, corporation or association, to sell or offer or expose for sale or exchange, for human consumption, any milk from cows that have not passed the tuberculin test, unless such milk shall have been pasteurized as hereinafter provided. It is understood and hereby expressly stated that nothing in this Section shall apply to the delivery of milk or cream to creameries, cheese or condensed milk factories by the producer of such milk or cream, or in bulk to the wholesale trade."

It will be noted from the reading of the above that this part of the law does not apply in any way whatever to any dairy farmer who is selling his milk or cream to a condenser, creamery, cheese factory, milk depot or any manufacturing plant, but said condenser, creamery, cheese factory, milk depot or manufacturing plant are held responsible for the process of pasteurization.

On the other hand, if dairy farmers are making what is known as "dairy butter," or any other milk product and selling the same directly to consumers, then and in that case, they come under the purview of this Act.

Section 8 of the Act makes provisions as follows: "Milk from any cow or cows whose owner or lessee shall apply to the State Livestock Sanitary Board to have such cow or cows tuberculin tested shall be exempt from all of the provisions of this Act until such time as such cows shall have been tested." This application should be made to Dr. W. H. Lytle, State Veterinarian, Salem, Ore.

REPEATING AND AUTOLOADING SHOTGUNS

If there is any one thing that a sportsman demands of a gun or a shell it is that it shall give him the full advantage of his skill.

The further along he gets in the game, whether at the traps or in the field, the surer he is to swear by Remington-UMC - both in guns and shells.

Remington-UMC guns work quicker than any man can aim, and shoot closely and evenly - "Arrow" and "Nitro Club" steel lined "speed shells" (smokeless) cut down many a bird that would have gotten away from any of the slower makes of shell.
