FIRST TEN MILES OF UNITED DONE JAN. 1

First Unit of Logging Road Now Under Construction to Gales

WILL TAP FINE TIMBER DISTRICT

Road Designed to Carry Logs and Lumber—to Build New Town

The Gales Creek & Wilson River Railway expects to have its first ten miles completed by Jan. 1st, and the line is being built expressly for a logging road. The railway is an extension of the United from Wilkesboro, and taps both Gales Creek and Wilson River, opening up a fine body of timber. Seventeen billion feet of lumber is the estimate of the timber belt which is to be tapped by the new line. Logs will be hauled to Harborton, near Linnton, Washburn, a new town, is to be located at the ten-mile terminus, and the promoters of the road expect to found a good-sized town there.

J. L. Washburn, the timber owner, who with his associates, is behind the railroad, expects to make this a thriving city. There will be a round house, shops, a paper mill, and other manufacturing facilities that will go to building up a commercial center.

It is estimated that eight train loads of logs per day will be the average haul when the line is established into Wilson River.
