GRABEL SCHOOL NEWS
The first week of school was spent in thoroughly cleaning the school grounds. With the help of the teachers we purchased a \$5 basket ball, which means exercise at intermissions. We also won a \$15 prize at the county fair on a one-room school booth, and now we are attempting to make our school standard.

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemer, of this town, says: "I look so well, and am so well, that it does not seem as if ever needed Cardui. But I was not always this way. I think I have taken a dozen bottles... before my little girl came. I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy... I was very irritable, too, and nervous."

"Eat what is on your plate" may seem to many people to be a new table precept, yet it has been practiced for many years in certain little communities nestled among the rugged hills of New England, where the waste of food is regarded as almost a crime.

People Who Rarely Wink.
There are people who rarely wink. How they manage to get along without doing so is a marvel, but somehow or other they do. Some eyes are naturally more moist than others, and the very moist eye does not so much need the assistance of the lids to keep the eyeball bright. It is a constitutional matter, for winking, though under the control of the will, is done so quickly that it is practically an involuntary action. Men wink when they feel that the eye is uncomfortably dry, and when it does not become dry the necessity for winking is not felt.
