ARGUS PUBLISHING CO.

America is now getting its taste of war and all avenues are being speeded up. There is but one end of the conflict, and that is victory for the allied forces fighting against the Kaiser. Put your shoulder to the wheel—and do it now.

In many counties of the state where sheriffs and clerks are detailed on the local war boards there is a move on foot to have no opposition at the coming elections. These officers naturally make a few enemies in the discharge of their duties as war officials, and to make them the victims of this enmity is neither just nor right. It would be a neat thing if neither Clerk Kuratlinor Sheriff Applegate had opposition at the polls this election, as both are doing their full duty to the government, as well as to the county, and, have the war work well in hand. Common and simple justice should give them a clear pathway. This is no time for politics, all things being equal.

SOME STAMPS

The sale of War-Savings and Thrift Stamps at the Hillsboro postoffice for March amounted to about \$32,000.00—making a grand total of \$54,000.00.

Of this total, the following have contributed largely, and in the order named: Sherwood, \$15,399.43; Banks, \$5,990.52; Beaverton, \$4,187.64; Cornelius, \$3,410.91; Gaston, \$1,993.06; \$1,772.14; Laurel, 1,076.80; Roy, \$828.11; Buxton, \$805.70; Orenco, \$733.53. Other offices have done well.

The above figures are not exact, some of the offices accounts not having been audited as yet, and will show little more.

J. C. Lamkin, Postmaster.

SON FOLLOWS FATHER

Archie Benjamin Owens, a son of the late B. F. Owens, died at the Good Samaritan Hospital, in Portland, April 9, 1918, after a short illness. His father died a few weeks ago, and the son took a relapse following the demise of the parent. He is survived by his mother and several brothers and sisters. His mother lives at Cedar Mill, where the young man, aged 22 years, was born and raised. Following so closely after his father makes the case an exceedingly pathetic incident.

The funeral services will be at 2 o'clock Sunday afternoon, and interment will be in the Union Cemetery, Cedar Mill.

John Sundquist of near Banks, and Henry Duyck, of above Roy, were in the city Tuesday.

have old suits or shirts, which have been discarded, and yet would be serviceable for the unfortunate at the farm, will be acceptable, and save the purchases being made by the public treasury.

DR. LUCAS, MOOSE HALL

Dr. Alzamon Ira Lucas, Psy. D., Ph. D., of Portland, will present an original and unique entertainment in lectures vocational and psychic demonstration in Moose Hall, next Monday and Tuesday evenings. This Oriental mind of American birth, inheriting wonderful psychical traits and acquired knowledge in all fields of human attainment, has evolved a new system of education and service in human endeavor. During the past 28 years, having lectured in the principal cities of America, he has gained a most intimate knowledge of Man, and without a question can tell you your life as it is and as it should be. His service in social and spiritual uplift is well known throughout America. In Portland, the past year he has lectured two nights at the Heilig Theatre and one week at Broadway (Liberty) Theatre, to thousands of people. "About 90 per cent of the people are 'misfits' in business, unsuccessful and unhappy," says Dr. Lucas, "and today America needs to prepare for the morrow. New blood should be given every advantage of their natural impulses in vocational expression. Middle-aged and elderly people should know how to succeed and how to be happy. Sorrow and trials must leave our homes and our places of business. Prepare for new things in a new way, upon a new earth—a new America."

Go to the Moose Hall, April 15 and 16. You'll feel better. Admission free.

From Timber 9:55 a. m.
From Buxton 2:10 p. m.

WHEAT CRISIS FORCES CHANGES IN RULES

Households, Eating Houses and Bakers Must Decrease Use of Wheat.

Urgent military necessities of the United States and the Allies has forced a more drastic restriction in the wheat conservation program. Coupled with an earnest appeal to all individuals, households, public eating places and bakers of bread and pastries for their co-operation and support, Herbert C. Hoover has issued a new set of rules designed to further reduce wheat consumption in this country until the next harvest.

These rules and Mr. Hoover's personal appeal are given out through Mr. W. B. Ayer, Federal Food Administrator for Oregon, in the following message:

"If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest (and this is a military necessity) we must reduce our monthly consumption to twenty-one million bushels a month as against our normal consumption of about forty-two million bushels or fifty per cent of our normal consumption, reserving a margin for distribution to the army and for special cases, leaving for general consumption approximately one and one-half pounds of wheat products weekly per person. Many of our consumers are dependent upon baker's bread. Such bread must be durable and therefore requires a larger proportion of wheat products than cereal breads baked in the home.

The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition our population in the agricultural districts, where the substitute cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations. With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk and we have ample corn and oats for human consumption. The drain on rye and barley as substitutes has already greatly exhausted the supply of these grains.

"To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

First—Householders to use not to exceed a total of one and one-half pounds per week of wheat products per person. This means not more than one and three-fourths pounds of victory bread containing the required percentage of substitutes and about one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals all combined.

Second—Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present, and in addition thereto not to serve in the aggregate a total of more breadstuffs, macaroni, crackers, pastry, pies, cakes, and wheat breakfast cereals containing a total of more than two ounces of wheat flour to any one guest at any one meal. NO WHEAT PRODUCTS TO BE SERVED UNLESS SPECIALLY ORDERED. Public eating establishments not to buy more than six pounds of wheat products per month per guest, thus conforming with limitations requested of the householders.

Third—Retailers to sell not more than one-eighth of a barrel of flour to any town consumer at any one time and not more than one-quarter of a barrel to any country customer at any one time and in no case to sell wheat products without the sale of an equal weight of other cereals.

Fourth—We ask the bakers and grocers to reduce the volume of victory bread—sold by delivery of a three-quarters pound loaf where one pound was sold before and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond seventy per cent of the average monthly amount purchased in the four months prior to March first.

Fifth—Manufacturers using wheat products for non-food purposes should cease such use entirely.

Sixth—There is no limit upon the use of other cereal flours and meals, such as corn, barley, buckwheat, potato flour, et cetera. Many thousands of families throughout the land are now using no wheat products what-ever except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than the one and one-half pounds a week allowed. We specially ask the well-to-do households in the country to follow this additional programme so that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes and in order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the Allies and our own army.

"With the arrival of the new harvest we should be able to relax such restrictions, but until then we ask for the necessary patience, sacrifice, and co-operation of the distribution trades and public."

FOR COUNTY RECORDER

Wm. Nelson, of Hillsboro, Republican candidate for Recorder of Conveyances at the primaries, pledges himself to a clean, economical administration of the office, his platform saying:

"I have not and shall not make any pledges or promises of appointments in consideration of any support of my candidacy.

If nominated and elected, I prefer that my hands be untied as to appointments, leaving me entirely free to administer the office unhampered by pre-election pledges.

I shall appeal direct to the voters for their support, assuring them that if elected I shall give to them the best that is in me in the way of a satisfactory administration of the office.

I am a Washington County man, having been born in Hillsboro. I have helped to build up our country by paying my just share of taxes. I am a Republican, and believe in the principles of the Republican party, and above all, am an American, and believe in the principles of my country.—Paid Adv.
