HAY CUT TOO RIPE Prof. Hyslop, of O. A. C., says that too much hay is cut over-ripe in the Willamette valley. His statement is:

"The vetch and oats, clover or grain hay crops of Western Oregon are frequently permitted to get over-ripe. Clover is ready for hay when one-third of the blooms begin to turn brown, but is frequently nearly ready for seed at the time of cutting for hay. This result is serious leaf loss and a large amount of coarse, hard unpalatable hay.

Vetch should be cut when the lower pods are half formed. When allowed to mature part of its seed, loss of leaves and more valuable portion of fine parts is caused, and a considerable amount of hard, rather bitter and unpalatable seed is left in the hay. Some stockmen have experienced serious injury to dairy cattle by feeding vetch hay with a large amount of seed in it. The practice of allowing it to get over-ripe is followed because it is then cured somewhat more readily. But with more attention to curing methods earlier cutting will give as big a tonnage and a better quality of hay."

FOR RED CROSS Portland, May 18—"Clip your Liberty coupons for the Red Cross."

This was the message that went resounding over the country today.

Interest coupons for the Second Liberty Loan became due this week.

As by far the great majority of these coupons are in the \$1 and \$2 value, it is believed that many of those having Liberty Bond coupons due will feel it a privilege to be able to donate them to the Red Cross.

Coupons should simply be clipped from bonds, handed to any War Fund solicitor, or mailed to the nearest Red Cross chapter.

Jake Raffety, of Mountaindale, and Peter White, of Gales Creek, were city visitors, Saturday afternoon.

OREGON LEADS U. S. IN WOODEN SHIPS

Floats More Than Fifty Per Cent. of Hulls Launched

A BIG BOX CAR ORDER

Portland Firm Will Turn Out 2700 at Once

May 20.—Oregon leads the entire United States in the number of wooden steamer hulls launched for the Emergency Fleet Corporation, the total in the country being 33 vessels, launched in six districts, while 18 of the number are afloat in Oregon waters. That gives the state three more wooden vessels afloat than the five other districts combined. Portland—The Pacific Car & Foundry Co. "launches" first fleet of box cars. It has orders for 700 from Union and Southern Pacific systems and 2000 from the government. Such orders will require millions of feet of lumber and this industry is similar to the shipbuilding industry in its importance to Portland.

Roseburg—1918 crop prospects good. Surveys determine definitely that at least a 70 per cent. yield will be enjoyed this season by prune orchardists. Production will equal 1917. Broccoli crop brings over \$20,000 cash to growers past two months. Sub-contract for grading stretch of new Pacific highway along Booth ranch let.

Toledo to build new reservoir with twice capacity of old one.

Portland—The war conditions have necessitated installation of dough mixer as labor saver at Portland Hotel bakery. Troy Laundry & Machinery Co. installs new machinery in Portland Hotel.

Statistics show that Pacific Coast shipyards are breaking all records in speed in construction and number of ships launched, both wood and steel. Coast yards have proved in face of strong opposition that they are entitled to equal recognition with eastern yards.

Roseburg—An army aviation school may be established in this vicinity.

North Bend—Belka Logging Co. to log Empire track. Will be cut into saw logs, railroad ties, poles, piling and ship knees.

Toledo—Work on Toledo Siletz road is forging ahead. New mill to be shipped in here. Capacity of 50,000 feet. Electric Light Co. to enlarge capacity. Two new boilers added to plant. Reported an electric railroad will be built from Newport to Toledo this summer. Survey has already been completed.

Pendleton—Local phone plant will be enlarged. Pacific Telephone and Telegraph Co. has authorized installing of two additional sectional switchboards.

Salem—Canneries of Salem expect busy season. Salem-Kings dehydrating plant prepared to fill 1,000,000 tins. Three hundred persons employed.

Coquille—Contract is let to Anderson & Kloekers to build Coos City Bridge. Cost \$12,064.50.

McMinnville, The Dennis Construction Co. awarded contract for constructing two million gallon reservoir and additional pipe line from reservoir to city. Combined cost \$24,904.

Taft—To build docks here soon. Construction to cost about \$6000.

Toledo—Public land to be open. Lincoln county has 14,863 acres of old O. & C. land grant.

You and your children are safe if you wear Dr. Lowe's superior glasses—eye safe and price safe. They cost you no more than the inferior kinds usually sold and you have the benefit of his skill and more than 27 years' experience as an exclusive optometrist. When you patronize him you receive the combined service of the trained eye specialist and scientific optician. One charge covers the entire cost of examination, frames and lenses. Dr. Lowe guarantees his glasses to give satisfaction whether they cost \$2 or more. If you pay more you pay too much. If you pay less you do so at the sacrifice of material used and service rendered. Dr. Lowe will be at Hotel Washington, Wednesday, May 29. Remember the day and date. Scores of Hillsboro references.

F. F. Hanley, of Leisville, was in town Saturday.

Ben Thurnher, above Blooming, was in town Monday.

Jos. Cawse, of Shefflin, was greeting friends in the city Friday.

Mr. and Mrs. L. R. Eldredge, of Banks, were city callers, Saturday.

Geo. Heineck and Henry Matthes, of near Laurel, were city visitors the last of the week.

For sale: Thorobred Ayrshire bull calf, from extra fine stock.—A. G. Pearson, Sherwood, Oregon. 8-10

Frank Robertson, of Gaston, was down to Hillsboro, Saturday, taking in the election returns.

For sale: New refrigerator, modern, capacity 50 pounds ice. Will take \$10 for it. Telephone 5R25. 8-10

Wm. Roberts, of the Nehalem, was in town the last of the week. Mr. Roberts remained over Saturday, and went out to the Mast sale, beyond Oak Park.

For sale: Full-blood fresh Jersey cow; gives 42 to 48 pounds milk per day; test, 5.5.—S. Sorenson, 1 mile south of Witch Hazel. Tel. 3R25. 9-11

Andrew England sold 230 acres of the Geo. Robinson farm, the other day. This is one of the fine farms of the Farmington section, and the new purchaser is a hustler.—John A. Lindow is the new owner.

W. T. Kerr and family, of Oak Park, have moved to their new ranch at Gaston, recently traded for, and will make their home in that section. He still holds his lease on the Beers' place, better known as the Leverich Lake property, and will farm it until his leasehold expires.

The kaleidoscopic changes rung in on the county commissioners' court and county judge in Washington County have not ceased. The matter of conducting the county business always has its troubles. The remarkable coincidence in the present campaign is that there are now two candidates pitted against each other who have served one term and been defeated on running the second term. And so Wes and Bob are to fight it out, while Judge Reasoner is figuring on increasing his mint acreage on his Oak Park farm.

The field of clearly defined vision through an ordinary lens of average power is represented by an angle of 32 degrees, while with the new Normal Vision Punctal lenses, fitted by Dr. Lowe, the angle is increased 60 degrees in all powers. Dr. Lowe still continues to sell the ordinary Toric lenses of superior quality, but recommends Punctals, for all persons who feel that their eyes once becoming defective deserve nothing but the best. Dr. Lowe will be pleased to explain Punctal lenses to you when he is in Hillsboro, Wednesday, May 29. This demonstration is gratis and will obligate you in no way to purchase.

Wm. McQuillan has purchased the Tualatin Hotel from the Footes and the new owner took possession Sunday morning. Mr. and Mrs. Foote will go to Seaside for a short time and will then return and assist at the hotel until the deal is legally closed. Mr. McQuillan paid a substantial sum down and will pay the balance in cash as soon as the deed returns from the East where it has been sent for signatures and acknowledgment. The consideration is not given, but it is supposed to range around \$10,000. The property is 99 feet front, on Main Street, and runs clear thro the block. This makes as near a quarter block as can be figured. Mr. McQuillan has lived off and on at this hotel for over 30 years, and when the owner advertised to close the dining room Mr. McQuillan suggested the purchase. A price was agreed on and money paid down to bind the bargain. Mr. McQuillan buys partly as an investment and partly from reasons of sentiment. He thinks he has made a good investment, and he says he has something that will keep him occupied, anyway. This hotel was built in the sixties, and has always served meals except a day or so at a time when the dining room was closed for repairs. The property joins the Delta building on the east and the Boscow store on the west.

Rev. L. Stuebe, of Blooming, and Rev. E. W. Luecke, of Shefflin, were Hillsboro callers Saturday afternoon.

PRES. KERR, O. A. C., SAYS TO CONSERVE

Delivers an Earnest Address in the Court House, Thursday

MAKES A STRONG APPEAL

Comes Direct From Washington, D. C., with Message for Citizens

President Kerr, of Oregon Ag'l. College, was a Hillsboro visitor last Thursday evening, and delivered an address in the court house to a capacity audience. He came to Hillsboro as the guest of the Washington County Patriotic League. Mayor John M. Wall, President of the League, presided, and after the Star Spangled Banner was sung, by the great audience, and an invocation was pronounced by Rev. Skipworth, the distinguished speaker was introduced.

Mr. Kerr at once went into the heart of his discourse—the admonition to conserve and to conserve patriotically; to get into the war with the real, unadulterated American spirit; to cultivate a morale that will show American arms in France that the country means business and that every effort is being made to give them moral and financial support just as much as though we were at their side in Flanders, fighting to conquer the assault on the democracy of the world.

Mr. Kerr stated that he was one of eight men called to Washington to go over the food conditions and matters of production with the members of the various departments, and he told of the great stress for wheat and food, not only for the allied armies, but for the people in France and Italy, as well as England, behind the lines.

He told how near was the collapse of Italy when the big German drive was made last Fall, and how foodstuffs, man power and assistance was at once rushed to the peninsula, and how we must deny ourselves to meet the future—a future fraught with dangerous possibilities unless we "get into the war," and get into it with spirit and determination to back up our own men and the allied armies and the allied people.

Mr. Kerr is an intense speaker. He is polished, a user of splendid diction; not given to spread eagle oratory. Every sentence he uttered carried a message to the people of Washington County. At the close he earnestly asked that all people go to their homes determined to obey the requests of the Food Administration and to put shoulders to the wheels to win the war—which, he said, must be won on European soil, so as to prevent the Hun from hammering at our shores.

The audience was dismissed by Mayor Wall after they sang "America."

NEW MEN FOR DRAFT

Portland, Ore., May 18.

"The act providing for the registration of men who have become 21 years of age since June 5 last has been passed by Congress and proclamation by the President will be issued shortly naming June 5 next as the day of registration. A supply of forms 67, registration regulations No. 2, has been mailed to all boards in the state. These regulations in every detail must be read and understood, by you immediately. Circular 186 of May 11 contains a synopsis of the plans for registration. Recommendation for the number of places for registration and nomination of extra registrars should be submitted to this office forthwith. New registration cards printed in blue and registration certificates have been sent to all boards. Local situations should be studied and if supply of these forms is inadequate additional supplies will be promptly furnished upon request, etc."
