

# THE HILLSBORO ARGUS

County Official Paper

L. A. Long, Editor.

Entered at the Post Office at Hillsboro, Oregon, as second-class mail matter.

Subscription, \$1.50 per annum.

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long.

For 26 years the Mutual Fire Insurance Association, now known as the "Farmers' Mutual Fire Ins. Ass'n., of Washington County, has carried fire insurance at cost to its farmer members. The institution has always conducted its business along business lines, and the fact that it is now carrying over a million and half of fire protection among its 940 members, with never a default of a fire loss is worth while noting. It is an organization of which the county should be proud.

It was fitting that the Oregon State Dairy Association should choose Hillsboro for its annual convention, for this city is the hub of the first dairy county in the state. Hundreds have attended the two days' session, and much has been learned. It would not be a bad idea for Hillsboro to get this annual convention each year for lectures could get no greater audience anywhere in the state.

As "shines a good deed in a naughty world," so is a good financial record worth giving the public. Ex-Sheriff Applegate's accounts have just been audited and Mr. Crandall, the expert, finds that the sovereign county of Washington owes Mr. Applegate the sum of \$43.74.

Late dispatches appear to agree that President Wilson, and England, through Lloyd George, are of one mind as to the League of Nations to preserve peace, and that Mister Lodge and Mister Knox are not to be consulted, notwithstanding their Knox.

From the popular pictures of the Bolsheviks, either the Russ barbers have raised on hair cuts or else the average Russ hasn't raised the price. Which is some paradox.

This is more like Oregon.

Try the Argus, \$1.50 per year.

R. H. Hanson, of Hazeldale, was an Argus caller yesterday.

Mrs. L. A. Long is the week's guest of Mrs. F. M. Crabtree, of Laurel.

Marriage license has been granted Clyde L. Jacobsen and Bertha E. Aydelott, of above Banks.

Father Kettnerhofen, of Beaverton, died last week, and his remains were shipped to Freeport, Ill., for burial.

Vaden Boge, son of Mr. and Mrs. Ed. Boge, of Farmington, arrived home from Ft. Lawton, having received his discharge. Vaden feels slighted that he did not get overseas.

Dr. R. M. Erwin, wife and son, were the guests of Mrs. Erwin's mother, Mrs. Agnes Lawson, of Portland, Sunday, the occasion being a postponed Thanksgiving dinner, and the guest of honor being Mrs. Erwin's brother, Maurice P. Lawson, of Battery A, 147 Field Artillery, who recently returned from overseas and was home on a two weeks' furlough, prior to being mustered out at Camp Lewis. Mr. Lawson was wounded in action, and come over on the Susquehanna, which brought 800 wounded men and about 1500 aviators. Men were left along the route all the way from Newport News to San Francisco, Young Lawson being the only one to be brought to Camp Lewis.

Skeels, Mrs. Walter Plieth, and a sister in California; three brothers at home, Joseph, Alvin and Frank, and two brothers in the East.

## VALUE OF HERD HEAD

Oregon Agricultural College, Corvallis, Jan. 13.—Dairymen who have been in cow testing associations continuously for six years show an average production of 114.9 pounds of fat per cow per year above the production of the men in the association the first year.

The average monthly production for the 35,000 cows kept on test in the western dairy division in 1917 was 34.5 pounds of fat for those that had been on test two years, 31 for those on test from one to two years, and 27.5 for those on test less than one year.

"If you get an increased average production for your dairy herd it will be only because the daughters of your herd bull are producing more than their dams," asserts E. L. Westover, field dairyman of the O. A. C. extension service. "Continuous record keeping is necessary to check up on each cow and also on the herd bull by comparing the record of the daughters with that of the dams."

"A cow influences but one offspring, while a bull will influence every offspring in your herd. If the herd is less than 30 cows, within five to six years it will be made up entirely of offsprings from your present dairy herd bull, except for the cows added by purchase. Fewer than one bull out of a thousand has a tendency to get daughters that will produce 600 pounds of fat a year."

## RED CROSS NOTES

Interest is picking up again in Red Cross work. Tuesday there were nine ladies present in the workrooms and good work was done on the hospital garments. Let us make Thursdays and Saturdays still better days. There are 50 of these garments yet to be made by the women of Hillsboro. Remember that it may be your boy who is wounded and needs comfortable garments; but no matter whose boy it is we must be willing to make small sacrifice of time necessary to finish these garments.

There is still enough yarn for 12 pairs of socks and good, swift knitters should call for this yarn at once.

We would be glad if all the auxiliaries would finish and return as soon as possible all refugee garments in their possession.

## BURNS' BIRTHDAY

On Jan. 25, lovers of Bobby Burns, the Scotch folk-poet, will celebrate the anniversary of the birth of the famous Scottish bard. His tribute to America and Washington contained the following lines:

"No Spartan tube, no Attic shell,  
No Lyre Aeolian I awake,  
'Tis Liberty's hold note I swell;  
Thy harp, Columbia, let me take!  
See gathering thousands while I sing,  
A broken chain, exultant bring  
And dash it in a tyrant's face,  
And dare him to his very beard,  
And tell him he no more is feared  
No more the despot of Columbia's race!  
A tyrant's proudest insults  
braved,  
They shout a people Freed!  
They hail an Empire Saved!"

# DODGE BROTHERS FARMERS CAR

Dodge Brothers Farmers Car saves money for the farmer by saving time. It saves money by helping him to get things done—and done quickly. It saves money by crowding more work into a given time with less effort. It saves money because the operating cost is low, whether it is running empty or loaded. It saves money because it costs next to nothing to keep in repair. These facts about Dodge Brothers Farmers Car are backed up by actual experience. Here is a little case in point. Fred Sellen is a butter and egg buyer of Saline, Mach. He formerly used three rigs collecting this produce from farmers—shipping by Interurban from Saline to Detroit. Now he uses Dodge Brothers Farmers Car, covers more territory than ever before, uses two less men and hauls his butter and eggs to Detroit instead of shipping them.

It will pay you to visit us and examine this car. The haulage cost is unusually low
