

GOOD ROADS ASS'N ASKS FOR PAVED ROAD

From Sherwood to Hillsboro is the Proposed Road

SCHOLLS AND HILLSBORO

Meeting Held at Scholls, Tuesday, at Hillsboro, Saturday

The Tualatin Valley Good Roads Association was formed at Scholls, Tuesday night of last week. The meeting adopted a resolution calling for state-federal aid for building a hard surface road between Hillsboro and Scholls, and committees have been named to see what can be done, even to the extent of taking it up with the legislature.

On Saturday evening, E. Weststrom and Jack Reynard came to Hillsboro and met with the Hillsboro Club, where the resolution of the organization adopted at Scholls was approved.

Mr. Weststrom addressed the Hillsboro Club, stating the object of the visit, and said that hard work was needed to get things started. He paid his respects to the Warren Construction Co. and their patent pave and evoked considerable applause by the way he handled his subject.

The resolution adopted at Scholls and approved here follows:

Whereas: A railroad survey was made on the south side of the Tualatin River; and, whereas, said railroad has not been built and never will be, as hard surfaced roads, automobiles and trucks will be the means of transportation and serve as feeders for the railroads and whereas; all the territory lying south of the Tualatin River from Sherwood to Hillsboro is without transportation and is hemmed in (on the south side) by the Chehalis Mountain and on the north side by the Tualatin River; be it therefore resolved that the Tualatin Valley Good Roads Association proceed at once to procure money from the State of Oregon or the Federal Government and build a hard surface road from Sherwood to Hillsboro, on the south side of the Tualatin River.

Be it further resolved, that the shortest route for the county road from Sherwood to Hillsboro is to be used; but wherever after careful calculation it will be found advisable to secure rights of way to straighten the road by making new grades, such work shall receive first consideration. However, any party or parties who desire this road to run close to his or their places of business or residence may offer a bonus large enough to defray the extra cost thereof. Such propositions shall receive careful attention.

Be it further resolved, that there shall be elected a committee of four, which in conjunction with the President and Secretary-Treasurer shall constitute a Board of Directors who shall work out the details of this undertaking and shall be authorized to engage the services of a competent attorney to help untangle the legal cobwebs we may run into.

These resolutions may be added to as circumstances and conditions may require.
