WHY NOT A LEAGUE?

It is noted that the people generally are in favor of trying the League of Nations, notwithstanding the politicians here and there of both dominant parties are contesting it. In Pennsylvania the other day, where a Congressional election was held, a strong Republican district elected a democrat who made his campaign on the grounds of favoring such a covenant. The great heart of the people in the common walks of life realize that a few months ago the great nations of the world, minus the Teuton countries, formed a League to promote peace, at the cost of millions of lives and treasure. They formed a perfect working agreement and it was successful. If a League of Nations was necessary to attain peace how much more is such a covenant needed to preserve the peace after we have won it.

Let us hope that the sanity of millions of people is not to be questioned at a time when the world has emerged from a charnel-house.

The bride's mother is a daughter of the late Mr. and Mrs. Samuel Williams, also pioneers. The bride has always lived here and her popularity attests her splendid character, being esteemed by a multitude of friends and acquaintances.
