

You Sit Where You Always Sat On the Seat of the Implement

MOLINE
UNIVERSAL TRACTOR
It Solves The Farm Help Problem

You wouldn't think of riding on the back of one of your horses in order to guide your team. If you did you would have to have another person to operate the implement, because you know most farm implements require constant attention.

Then why attempt to operate a tractor in a manner which your experience has proven impractical? It is just as logical to ride on your tractor in front of the implement, and expect to operate it to operate the implement from the back of your horse.

Any way you look at it you are working at a disadvantage with the ordinary tractor. To do the best work two operators are required, one on the tractor and one on the implement. In these days of extreme labor shortage this is a tremendous handicap. With

the operator on a tractor in front of the implement it is manifestly impossible for him to give the implement attention and make adjustments for varying field conditions without losing time.

With the Moline Universal Tractor you sit on the seat of the implement and have perfect control of both tractor and implement. You are in the best position to observe the work, make adjustments and manipulate both tractor and implement. This holds true regardless of the work being done—plowing, discing, planting, cultivating, mowing, harvesting, etc. There is nothing new about this, we simply apply a principle which millions of farmers have demonstrated to be sound. The Moline Universal gives one man control of greater power than is possible with horses, with the same method of handling and as much versatility.

The one-man feature is just one of many advantages the Moline Universal has over other tractors. It is the only tractor which will do all farm work, including cultivating. It is the only tractor regularly equipped with self starter and electric lights. Non-robust labor can operate it successfully, and it can be worked day and night.

No detail has been overlooked to give the new Moline Universal Model D Tractor positive reliability. The perfected over-head valve 4-cylinder engine develops unusual power, and is economical in operation. It is conservatively rated at 9.18 H.P. Oil is forced to crankshaft bearings under 35 lbs. pressure. Gears are steel cut, drop forged, and heat treated. All shafts are splined. Every working part is easy to get at, and every moving part is enclosed.

KAHN POINTS WAY TO ESCAPE HEAVY TAXES

California Congressman Says People Must Cooperate With Government

Congressman Julius Kahn of California, senior member of the Military Affairs Committee of the House, in a signed statement given out at Washington, reviews briefly some of the problems confronting the government in post-war finance and urges the country to help congress hold down taxes. He said:

"How is the United States going to pay her war debts which are now beginning to flood the nation's treasury? The outflow of public funds today is almost on a par with the expenditures made while the war was raging. Although there are no more munitions or implements of destruction which American factories created to bring about the downfall of the imperial government of Germany, have not all been paid for? Then there are the heavy expenditures incident to reorganizing the world from a war to a peace basis.

Reconstruction Cost Heavy. "It is no news to students of history to be told that the expenses of post-war reconstruction have always been as great and many times greater than the actual war outlay. Food must be shipped to our boys who are still on foreign soil. Money must be raised to further projects having to do with fitting these noble heroes of ours with suitable occupations. Those who have been maimed must not be made to come into competition with the sound.

"Where is the money to come from? The people themselves, although they lent patriotic and wholehearted support to the government's war program and made unprecedented sacrifices, keenly felt the effect of the taxes imposed in the revenue bill such as they had never faced before and would have not submitted to except in view of extraordinary circumstances. Now that the war is over we must find some way of raising money to finance the various necessary projects confronting the nation.

People Must Cooperate. The people must cooperate, and they can cooperate without paying heavy taxes. They can continue to invest in War Savings Stamps, Liberty Bonds and other government securities, and help the government by helping themselves.

"The government offers its citizens a two-fold proposition, mutually helpful. Funds can be raised to help the government meet its obligations, by the patriotic cooperation of the people, who are at the same time making as safe an investment as can be made in securities, backed by the most stable business on earth, that of Uncle Sam."

Glass Is Thinking of Fifth Loan—Are You?

"I say that it takes a higher type of patriotism to serve this nation today that it required in the delirium of war, and that it is the duty of the American people, and I believe they will regard it as their privilege, to approach that question with some degree of patriotism and not altogether upon a commercial basis."

Secretary of the Treasury Carter Glass.

"There never was a time in the history of the United States when the utmost possible stimulation of the saving habit meant so much to individual and national prosperity as it does now."—Elmer H. Youngman, editor of "The Bankers' Magazine."

We have won the war; we must keep our army equipped to help enforce peace. War bills must be met. Lend your money to the government. Buy War Savings Stamps.

VICTORY LOAN QUOTA NOT TO HINGE ON W. S. S.

Failure of Some Districts to Reapportion Causes Change in Plans

Victory Liberty Loan quotas will not be affected by Thrift Stamp sales as planned by the Treasury Department the first of the year. It was announced last January by Lewis B. Franklin, director of war savings, that whenever Thrift Stamp quotas were exceeded the amount of over-subscription would be taken from the coming loan quota and that if the Thrift Stamp quotas were not reached the deficiency would be added to the loan quota.

Governor James K. Lynch of the Federal Reserve Bank has just received a telegram from Washington advising that the plan to adjust Victory Loan quotas in accordance with the sale of War Savings Stamps has been abandoned. The reason given was that some of the Federal Reserve Districts were not reapportioning Thrift Stamp quotas.

THRIFT MEANS Spending wisely to satisfy important needs of the present and saving the rest of one's income to meet important needs of the future, lest spending for trifles today deplete one's resources so that he cannot meet important needs and opportunities tomorrow. Thrift, like success, requires two things, planning and power to carry out the plans. In short, thrift means success.

Thrift Stamps will help you to plan and will back up your will power.

REGENERATION

Before I went to war I lived my life in luxury and softness, seeing Of the despair and sad, unceasing strife Of thousands with whose lives my ease was bought.

Before I went to war I took no thought But heedless, careless, dallied on with sin; Saw and the price at which a soul is bought. Nor knew the souls men buy as mine own kin.

I went to war—tore out my dying roots From the stagnant soil and flesh was bodied in. I'd thought to find my comrades uncouth brutes— Instead, found men, and learned that sin is sin!

And Liberty!—I learned to know thy call Is God's own call to help the world in pain. So, God, I pray thee not to pardon all, But do not let me close my eyes again!

—Lieutenant John H. Minns.
