

There can't be any such word as "FAIL"
—where America is concerned

There is no such word as "Fail" in the vocabulary of the real American. Our boys have proved a thousand times that they never heard of it.

And, where the Victory Loan is concerned, it's not to be dreamed of. The Loan is going over and going over BIG. Make certain that you have a part in its success. Buy to your limit.

THE PRESIDENT'S PLEDGE

TO THE WOUNDED SOLDIERS OF THE AMERICAN ARMY

The White House.

I could tell you what the sacrifices you have made have meant to the world. I could tell you what history for all time to come will say of you and of the sufferings you have experienced on your great crusade. But these things other men will tell you.

I prefer to remind you that the wounds you bear are the noblest badges of honor any man has ever worn; that they exalt you to a supreme place in the minds and hearts of your countrymen and of all the world. I prefer to assure you that America realizes that she has no more solemn obligation, no more patriotic duty than to express in practical terms the gratitude that every American—man, woman and child—feels for every one of you. America will not forget.

—Woodrow Wilson.

Back up that statement. By practical terms the President meant money. The Victory Liberty Loan will supply it. The President was counting on every American, rich and poor, when he made that promise. Subscribe.

VICTORY NOTES NOT TO LOWER IN PAR VALUE

New Issue Has Special Appeal to All Investors, Says Expert.

"Capitalists, as well as the small investor, may purchase the new Victory Loan notes with the fullest assurance that they will hold in the market close to the issue price," declared G. K. Weeks, Victory Loan campaign manager for the Twelfth District, today in calling attention to the strong appeal the Victory notes make to investors strictly from an investment standpoint. He continued:

"It has, of course, been a source of disappointment to subscribers for previous Liberty Loan issues that these issues have gone, even temporarily, to a discount of five or six points in the market.

"While this does not represent a real loss to those who have held their bonds for investment, it is reassuring to subscribers for Victory notes that no such discount is possible in the case of the present issue.

"Discount impossible." "A decline of the Victory Loan notes of only one point, to 99 for example, would put them on an interest return of 5.03%. Even during the war, with the prospect of continued large issues, no Liberty Bonds have ever declined to any such basis. The Fourth Loan bonds today, as a matter of fact, are selling to yield less than the 4 1/2% paid by the Victory notes at par.

"A similar situation exists in the case of the series of 3 1/2% fully tax-exempt notes which are suitable for the larger investors. The first issue of the fully tax-exempt Liberty Bonds bearing 3 1/2% interest, in spite of all the liquidation during the war, are selling today to yield only 3.55%.

"Should the Victory Loan 3 1/2% notes decline to 99, this would be equivalent to a 4.03% return from its fully tax-exempt note, which would be equivalent to 91 for the Liberty Loan 3 1/2%, which now are in active demand in the market at 99."

ROOSEVELT SAID IF PEOPLE WON'T WALL STREET WILL

Great American's Words Ring True Today as When Spoken.

"Long after this war is over, we shall continue in the struggle to achieve liberty for all mankind. To do it effectively, we must bind ourselves together as a nation, and there is no surer bond between a man and his country than that he shall be a bondholder of his country."

"To own bonds of the United States is a badge of honor."

"There should be Liberty Bonds in every home in America."

"I appeal most earnestly to the men and women of America to lend their money to the government; and to do it now!"

"I myself have invested in these bonds. There is every reason for buying them. The patriotic reason is enough. But, in addition, there is offered the best security in the world, backed by the credit of the government and people of the United States."

"The outstanding and fundamental need of the government, without which nothing can be accomplished, is money, in large sums and small."

"Buy Liberty Bonds—the security is the best in the world."

"Do not let Wall Street monopolize the financing of the War—and, if you do, then do not blame Wall Street but admit that it is more patriotic and far-sighted than you are."

CIRCUIT COURT

New cases filed—Mamie Haslan Siegfried sues Walter Ray Siegfried for divorce. They were married at Ellensburg, Wash., in 1911, and the wife alleges the husband had several times struck her in the face, leaving marks. She says he left her last January to go to Boise, Idaho, and that since that time he has sent her but forty dollars, insufficient to support her. She wants her freedom so long as she has to hustle for herself.—The Acme Fuel Co. sues E. H. Crawford for the balance due on a promissory note, \$136.60 and interest, claiming that after Crawford had sold them cordwood there still remains the litigant balance. The following cases have been dismissed because of lack of prosecution:

J. W. Ashley vs. Perry Ellis; Ambrose Burdell Co. vs. L. W. Rollick; Carlson & Sherck vs. H. C. Fries; H. Gregson vs. R. E. Neighbor; Helser Machine Co. vs. John Doe Tharp; L. H. Hamig vs. Wm. Martin; J. F. Kerr vs. C. Alton; C. M. Morgan vs. A. E. Luce; N. J. Person vs. I. L. Moreback; Portland Lumber Co. vs. W. F. Desinger; A. H. Phipp vs. unknown heirs of C. W. Lloyd; Alma Swanson vs. Gustave Klatt. Sheriff's sale realty confirmed—U. S. National Bank of Portland vs. Fred A. Kribs, lands in this and two other counties; John Bernards vs. L. M. Clark et als, southeast of Hillsboro.

Mrs. Wm. E. Beydler, of Beaverton, died at Salem last Thursday, the result of complications following the influenza. She left a husband and three sons. The remains were shipped to Kansas for interment after the funeral at St. Cecilia's Church, Beaverton, Sunday.

Unusual Opportunity

We offer 40 acres of highly developed land adjoining the Hillsboro High School for sale, in small tracts.

This is probably the most desirable acreage in Washington County. Location good; soil good. This property is five blocks from the centre of the business district.

The Pacific Highway will advance property values and this land is being offered at a price that warrants a big advance to the purchaser.

We suggest that this acreage be planted to small fruit, thus insuring big returns. Where planted to Loganberries we will accept small payment down; balance can be paid from crops on a guaranteed price.

Loganberry Facts

The Willamette Valley is practically the only section in the United States adapted to the growth of the berries.

The popularity of the juice for beverages and the fruit for canning and jellies and jam has developed enormously.

One Oregon concern has been capitalized at \$1,500,000, and is constantly expanding.

The Loganberry is hardy and will do well if given half a chance.

The yield is enormous. Five tons per acre is not excessive for the land we are offering. This can be exceeded by giving good attention.

Under ordinary circumstances a person should realize from \$150 to \$300, net, per acre, according to care given.

The crop can be contracted for ten years if desired. This is the best criterion as to the stability of the industry.

The producing area is small and the consuming world is unlimited. Shipments of carload lots are going forward to the big cities of the East, and even China is making demand for Washington County products.

Five acres should provide a good living for a family.

The Loganberry is past the experimental stage. The business has been stabilized and millions are being invested to take care of the ever increasing business.

What We Do

We plant the berries.

We supervise and furnish information as to care, cultivation, etc.

We guarantee a market even for ten years if desired.

What You Do

Make small payment down.

Take proper care of berries after planting.

Pay no principal the first two years.

After that the earnings of the yard will pay for the whole proposition in three or four crops.

When the yard is producing the value of your investment will be doubled.

Scarcely any other proposition offers such quick returns; surely none more profitable.

We have disposed of 30 acres to the east of High School and have 40 acres left which we will plat to suit the purchaser, two, four, five or ten acres as desired.

These tracts will probably soon be sold, as the proposition is such as the most conservative cannot find objections to.

The price is right—The guarantee is right—Everything about the proposition is sound.

The statements made by us can be verified by consulting the growers in Washington County, the agricultural agent and the manufacturers.

Within a year or two Hillsboro will undoubtedly have a large plant established here. Manufacturers are desirous to come here. All they want is the acreage.

Five hundred acres to berries will produce an annual income to Hillsboro and vicinity of over \$200,000.

This comes in the Summer, and the picking money is put into circulation and the berries are paid for in cash, thus putting into circulation a vast amount of money when it does the most good.

We have other land that we will sell at a less price and now is the time for every person who desires small acreage to get into the game and make their demands known.

We have over 200 acres adjoining Hillsboro, and can meet the demands of nearly any person.

Remember it is just as cheap to own an acre of land as a small city lot, and the location is not surpassed for residential purposes.

All we want is enough payment down to show good faith. We are willing to wait for the balance, as we know the proposition is good and will pay big.
