

## CO-OPERATION HELPS SAYS SCHULMERICH

Chairman of Table at Merchants' Luncheon Says to Work in Unity POINTS TO P. R. & N. RY. As An Example of What Small Town Can Do

Ed. Schulmerich, chairman at the Monday noon luncheon of the Hillsboro business men, at the Hotel Washington, this week, sounded the keynote of success for Hillsboro—and that was "co-operation and consistent work, getting in payrolls and double our population."

Mr. Schulmerich said that one instance of what community effort could do had been exemplified by getting the Pacific Railway & Navigation to make Hillsboro their terminal of the Tillamook branch. He said that the right of way cost Hillsboro less than \$10,000, and that the building of the road had brought to the city the expense involved more than a hundred fold in profits alone.

He advised the merchants taking up the matter of sawmills, and said that every effort should be made to establish plants here which would be able to use the slabwood and trimmings, the latter for by-products.

The question of a camp ground for tourists by auto travel at the city park was taken up. It was suggested that some one see the council and J. W. Shute as to giving one acre of the park grounds for this purpose. It would be advisable, it was thought, to have the name of the park put up, with the invitation for campers to stop and enjoy life.

The matter of a concern to handle building material was also brought before the house, and an effort will be made to induce some one to install a stock of this nature.

R. E. Peters will sit as chairman at the next luncheon, which will be held at 12:14 a week from next Monday.

### BRIERLY-WEST

M. M. Briery, of Hillsboro, and Prudence West, of Whiteson, were united in marriage, June 14, 1919, at Vancouver, Wash. They are at present making their home at Whiteson, Ore., and will remain there until September when they will take up their residence at the home of the groom in Kings Valley, Benton County.

Upon their return to Whiteson they were given a splendid reception by the residents there, who have known the bride for a number of years. Mrs. Briery is an ardent worker of the Woman's Relief Corps and is one of Whiteson's estimable ladies.

The groom is well known here, where he has always had a host of friends. He was elected Commander of Gen. Ransom Post last January. Mr. Briery came down the first of the week to settle up his affairs here. The Argus joins his many friends in congratulating him and his bride.

For greater value in used cars, don't fail to see Perkins.

That depot ordered at the junction of the S. P. and Tillamook line on Main and North Range, in these many months ago, is still a negligible quantity. It's all right in the summer time, but during the winter campaign the necessity of a building is over-riding.

Some big fours (used) Ovelands, and others at right prices.—E. L. Perkins. 3-1f

Miss Alice Sewell, who is spending the summer in Portland, was out Sunday to the home place.

An authority on automobiles says that Washington County easily has double the cars this year that it had in 1918. This is more than noticeable on Hillsboro's streets, when almost every day the parkings remind one of Portland's business streets.

A. P. Patten, former principal in High School in this city, was out this week, attending the 8th Grade exercises at the court house square. He and H. I. Patten will on July 1 open the resort at Cannon Beach, and remain there until October 1. Cannon Beach is located below Seaside, and is one of the most attractive outing places along the coast.

Thousands of tons of hay down and being put into the barns is the record of the past ten days, and it has been some years since there has been so big a hay crop. The winter grain is surpassing itself in growth, and it would appear that nothing but a "wet harvest" will deter Washington County from the crop of crops. Wheat is filling nicely and the most adverse of weather could hardly upset crop prospects at this time.

## MISS HOBBS-WRITES FROM THE RED CROSS

Says That Washington County People Should Write Dept.

TELLS OF MEMORIAL DAY

Heard President Wilson Deliver Address—Graves Decorated

Miss Fern Hobbs, who has been with the American Red Cross in France, in a private letter to her mother, Mrs. J. A. Hobbs, says in part:

Dear Mother: On Decoration Day I went out to the American cemetery at Surannes and heard President Wilson. He gave a splendid address and the whole was very impressive. Every American grave over here was decorated and services held in all the larger places.

"I am enclosing front page of daily papers. Wilson looks very much worn and terribly tired. He looks as if he couldn't stand the strain much longer. It has been terribly hard for him and the unreasonable actions of so many at home must be about the last straw. We surely do hope here, as much as at home, that peace can come soon.

The Red Cross is undertaking to photograph every grave over here. If any of people you know in Hillsboro wish picture of grave of their sons tell them to send a request for it to the Bureau of Home Communication, American Red Cross, Washington, D. C., and they will send one in due course. It may take some weeks or even months, but is good idea to get request in early, while the men are working in the field over here. All our records will be taken across to the Washington headquarters, and I think I shall be asked to go down to Washington with them, which will be fine if they don't want me to wait around here indefinitely.

"A lady who has been in charge of the sub-section of Home Communication is going to leave for home at once, so for a few days I shall have the whole thing on my hands and all the final packing and closing up to supervise. This really entitles to rank of Major; that is, men chiefs in similar positions get that rank. Don't you think I should feel flattered? But I surely dread the next few days or weeks, as it is surely hard work to get it all straightened out and shipped across for use on the other side. I should be very glad to skip off home myself. Do not see any prospect of leaving before July first, but hope will soon after that date. As ever, "Fern"

The state highway contractors have the cement laid between the city park and Rock Creek, and Tuesday commenced getting the trucks up for proceeding eastward. It is expected that in a few days they will get down to business and stretch out from four to five hundred feet daily.

Hugh Rogers is again able to handle his work, and says the lumber and logging business over the state is going some. He says a new mill goes in on the Jack Killin place, above Banks, which will cut from 45 to 50 M. per day and have two railway connections—the spur to the Tillamook line and the Wilson River railway.

Wm. B. Jolly, of Portland, and his sister, Mrs. M. M. Thein, of Aberdeen, Wash., pioneers of 1847, were in the city Tuesday, guests of Mrs. Janie Sewell, Mrs. Thein came over from Aberdeen to attend the pioneer reunion, and came out to Hillsboro to renew the acquaintances of pioneer days when Hillsboro was their home. They will attend the reception to Mrs. Olive Riley, at Portland, tomorrow.

It might be of interest to those who delight in the fistie sport to know that Mike Butler, of Portland, trainer in athletics of this sort, left this week to attend the Willard-Dempsey bout at Toledo, Ohio. Mike was the gentleman who trained Larry Fernsworth, since editor at Banks, for about twelve months, to give Fernsworth the hope to enable him to put the Argus reporter to sleep—but somehow or other the Argus scribe kept both eyes open.

A. Zwicker, of near Tigard, was up to the city Tuesday. He has been one of the pioneers for permanent road improvement down in his section, and says that good roads down his way have meant wonderful things for the residents. Property is changing hands at advanced prices all the time, and the farmers have decent highways to get to market. He is very anxious to get the road from Greenburg to Beaverton roaded so as to get into the state highway enroute to Hillsboro.
