

Geo. W. Morgan, who in olden days lived up on the ridge above North Plains, was in the city Monday morning. Geo. says the years are creeping on but he proposes to squint his eye over the sight of a Winchester trained on a big buck this year or know the reason why.

John Carver, of Hamilton, Mont., now spending a few months with his son, at Donald, Oregon, came over Saturday to visit a few days with his brother-in-law, M. C. Lincoln, returning the last of this week. He says he likes Oregon very much and may remain over until next Spring.

The Argus Saturday morning finished a 292-page brief in the Hodler versus Hodler suit, for the Supreme Court. There are local offices in the county which would make a column spread on this, but the Argus dismisses it with a few lines—aside from stating that this is probably the largest brief ever printed in the county.

Mr. and Mrs. W. H. Taylor and daughter, Miss Florence, departed Tuesday for Wheeler, Ore., where they will spend a month. Their three sons, Wm., Fred and Glen, all recently returned from service overseas, departed Monday for the same place, going in via auto to Seaside, and then across. The entire family meets with the eldest son, Harold, who lives at Seaside, and there is a genuine family reunion.

Reedville dedicated its home ground by defeating Aloha, 12 to 5, and losing to Gaston, 8 to 3. The Reedville-Gaston game was a rather ragged affair filled with costly errors. Millar, pitcher for Reedville, was all to the good, but on account of lack of support Gaston was able to score heavily. The marvelous work of the Gaston pitcher held Reedville scoreless up to the fourth, when a sudden display of heavy slugging saved Reedville from a shutout. The Aloha-Reedville affair was never in doubt, both of Aloha's pitchers failing to check the heavy hitting of Reedville.—A Fan.

The Board of Lubrication Engineers

Our Board of Lubrication Engineers study the lubrication needs of each make of automobile.

These experts have determined the correct consistency of Zerolene for your make of automobile. Their recommendations are available for you in the Zerolene Correct Lubrication Charts. There is a chart for each make of car.

Zerolene is correctly refined from selected California crude oil. It keeps its lubricating body at cylinder heat, holds compression, gives perfect protection to the moving parts and deposits least carbon. It is the product of the combined resources, experience and equipment of the Standard Oil Company.
