

THE HILLSBORO ARGUS

County Official Paper

L. A. Long, Editor.

Entered at the Post Office at Hillsboro, Oregon, as second-class mail matter.

Subscription, \$1.50 per annum.

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long.

One can't "hep" but naturally wonder if that Senate Committee on Foreign Affairs is going to take Shantung away from Japan—and how in thunder they're going to do it?

Perhaps those Kaiser propagandists down south of the border want to see Mexico get a wallop just on the basis that misery loves company.

Mr. Caranza should remember the story of a certain one-legged man who tried to run the U. S. away back in the forties.

The more we look over the Messrs. Borah and Lodge the more firmly we are convinced that they are the only ones who know just how a peace treaty should read, if we take their word for it.

While road building is slow

work, next Winter will show us that a state highway is worth while, anyway, even if the stretch isn't so very lengthy.

Washington County has had a fine year and the price for farm products isn't hiding in the cellar.

POULTRY TOUR PLANNED

A tour of the larger poultry plants in Washington County is being planned by the leading poultry raisers. It is expected through such a tour that many valuable suggestions can be obtained which will be of advantage to every poultry raiser.

Washington County has some of the largest flocks in the state, and has as many commercial plants as any other county, so that a visit to these farms can be made immensely profitable.

A meeting is soon to be called of representative poultrymen, at which time the route will be decided upon and whether or not the tour will be of one or two days' duration.

County Agent.

"If It's Rubber, We Fix It"

We Can Save You 75 Per Cent of Your Tire Value

The greater part of a tire value is in the carcass. Yet many tires are discarded because the tread is worn out.

With a Miller Ad-On-A-Tire we will make your worn tires practically as good as when you bought them. After applying the Ad-On-A-Tire you cannot tell the old tire from a new, except that it is over-size and more puncture-proof than a new tire.

The Miller Ad-On-A-Tire is built like a tire without beads. It is made of tough, buoyant rubber with several layers of fabric. The side walls completely cover the tire and clinch under the rim. And it also has the famous tread that is Geared-to-the-Road.

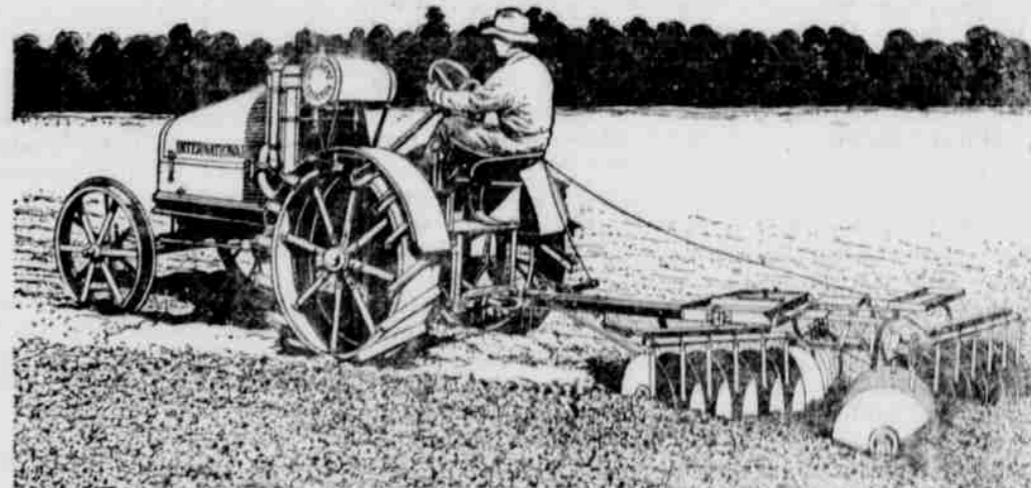

The many caterpillar feet of this tread engage with the ground like cogs. You are assured complete traction and greater safety.

Any tire, regardless of make, can be re-miled with a Miller Ad-On-A-Tire.

Bring your worn tires, and we will show you how we can lengthen their life.

The School of Experience

IT IS pretty generally accepted now that farm power is best generated by kerosene and other low-grade, low-priced fuels. A tractor that operates successfully on these fuels, insuring dependable power at drawbar and belt, is the tractor that will stay because it will pay.

We have a good tractor investment from every viewpoint. It is

International 8-16 Kerosene Tractor

This economy tractor has established its reputation for satisfactory performance in the school of experience. It has passed successfully through long and rigid tests under actual field conditions in all sections of the country. It insures, good, quick work, consistently, year in and year out.

Belt work on the average farm is becoming more and more important. The use of small threshers, ensilage cutters, huskers and shredders, etc., combined with a suitable tractor, is making the farmer more and more independent.

All of this emphasizes your need for an International 8-16 tractor that is designed to do tip-top belt work as well as taking care of field and road jobs.

We believe in the International 8-16 and thousands of farmers using it now are thoroughly satisfied they are well equipped. Let us show you why an International 8-16 will handle your work economically and well all the year 'round.
