

# TAX LEVY GOES TO HALF MILLION MARK

State Requires Over One Quarter of Amount of Taxation

## CO. BOARD MAKES LEVY Seventeen and Three-Quarters Mills is the 1920 Levy

The County Board has levied the taxation in millage for the year 1920, and the millage of county, state and schools, outside of special taxes runs to 17.4 mills, and provides the sum of \$505,913.61. This includes the high school tax on districts where high schools are not maintained, which amounts to nearly \$18,000, and also the state tax for sailors and soldiers educational purposes, and the market roads levy by the state, as differentiated from the county. These latter two items throw the state tax which our county must pay to the sum of nearly \$130,000.

The levies, as made by the court are:

Purpose	Mills
State Tax	5.72
General Co. tax	8.41
Co. School tax	3.2
Indigent soldiers	.035
Library	.035
Co. Road tax	2.5
High School	1.06
Market Roads	1.54

Sums to be raised

State tax	\$129,952.49
County tax	191,066.51
School tax	72,709.69
Indigent soldiers	795.16
Library	795.16
Co. Road tax	56,797.41
High School	17,948.99
Market Roads	34,987.20

The total millage for state, general county and schools is 17.4 mills.

John Reichen, aged about 64 years, a native of Switzerland, was found dead in his home near West Union, last Saturday. A neighbor was enroute to Hillsboro and passed the place Saturday morning. He noticed that Reichen's stock had not been fed, but thought nothing particularly about it until he returned that afternoon, and noticed the same condition. He thought he had better investigate, and when he knocked received no response. He then tried the door, but it took force to swing it open. Reichen's shoes were disclosed as the door opened, and the caller at once went to the telephone and called the sheriff. The official went to the place at once and found Reichen dead. He probably had expired early Saturday morning, or very late Friday night. He evidently had gone to the door to open it when he fell, or had just entered the house and shut the door, when he was stricken. Reichen was a peaceable citizen and had many friends. He was a bachelor, and had lived out at West Union for over a quarter of a century.

The plaintiff swears that when she asked the husband to get some wood he told her they could all freeze to death, as he didn't give a g. d.

# ORCHARDIST WRITES OF FRUIT NECESSITY

Authority on Orchards Sends Interesting Letter to Argus

## CAPTURED MANY PRIZES

Tells of Need of a Fruit Inspector Who Will Make Good

B. Leis, the Beaverton orchardist, writes the following to the Argus, under date of Jan. 3:

"Noticing in the Argus of Jan. 1 that 'B. Leis, of Beaverton, who has taken first prizes at a land show in Portland against all comers from the Northwest, etc.' permit me correct—it should read 'at every land and horticultural show, competing with the whole Pacific Northwest.'"

I have in my possession medals and premiums galore, and will have them on exhibit at the Bank of Beaverton, and later, perhaps, at Hillsboro. The only time that I did not get first prize was when Washington County had a prize which is now at Hillsboro. I furnished the stuff and others got the credit. I was promised pay for my work and boarding the men, etc., but am still waiting for the check, and think I will have to wait.

Now, as to a fruit inspector—we have not had a fruit inspector to speak of for some years and most of our beautiful orchards are not fit for firewood—notwithstanding we can raise the best fruit in the country. Many orchards are covered with San Jose scale and would not burn—but later I will mention more on this subject.

At the present writing we have no fruit inspector—and it is probably as well, for the appropriation carries but \$100 for 1920, while there is not a county in the state needs one more than we do. I mean, of course, an inspector who understands his business—not some one who will call "anthracnose."

Now to give us an idea of the kind of clean apples we are raising—some years ago I had a load of apples in Portland. A man got on my wagon and asked where I was from. I told him, and had a hard time to make him believe me. He said "This is the first clean load of apples that I ever saw from Washington County. The man was State Inspector, Mr. Stanbury. The Oregon Growers' Cooperative Ass'n. will soon be building packing houses in Washington County, and that will mean that growers will get the best prices for their product, as all will be sold under one brand. They will do the packing, grading, etc., providing, of course, they get the acreage, and, of course, the fruit will have to be marketable, and to have marketable fruit—of course anyone can raise them—you will have to spray at the proper times, and use the right kind of spray material, and not let some dealer, for the sake of a larger profit, impose on you, telling you this 'dry stuff' is as good as any spray, when it is absolutely worthless. I mean the soluble sulphur and dry lime and sulphur. To be of any use at all twice the amount must be used—but more of this later.

Without boasting I have made a success of the orchard business for about 30 years. I have made a practical study of the industry, so I believe I am in a position to know at least something about it. This knowledge is at the command of any fruit grower, as I am always glad and willing to help any one who does not know.

B. Leis, Aetna Orchards, Beaverton, Ore."

### MRS. J. E. KERTSON

Mrs. Mary Frances Kertson, wife of J. E. Kertson, of 72 East 26th St., Portland, died Sunday, from the results of drinking a quantity of concentrated lye, doubtless with suicidal intent.
