

County Official Paper

L. A. Long, Editor.

Entered at the Post Office at Hillsboro, Oregon, as second-class mail matter.

Subscription, \$1.50 per annum.

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long.

For 37 years the Farmers' Mutual Ins. Ass'n. has transacted the business of protecting farm buildings along insurance lines in Washington County, and it is still flourishing. The mutual plan in this instance has worked successfully, and carrying over a million and half of farm insurance is no small undertaking.

William Jennings-Bryan occasionally breaks to the front pages of the big papers—and when he does he generally has a message that is good reading. The old commoner may have run to seed

as some of the bullet headed are wont to remark, but as a rule it is mighty good seed.

Hundreds of autos lined the state highway Sunday—out showing their new licenses.

SERVICE MEDALS

Hillsboro Post No. 6, American Legion, has received a letter stating that Oregon is to give a bronze medal to all who were in the world war service, enlisting from Oregon. The American Legion is to be the means of distribution, and the Hillsboro Post will take care of this section. The Post is asked to supply a roster of all soldiers, sailors, marines, who enlisted and who were residents of Oregon at the time of going into the service. The Post will furnish addresses, and to those who are not members of the Legion requests that they at once join so as to have their names on the roster which will be sent in. The data wanted is, name, residence at date of entry into service; date of enlistment; organization, and present address. The Post extends an invitation

to all ex-service men to become members at once. The cost is \$2, and this includes dues for the year and subscription to the American Legion Weekly. Legion men here give you a special invitation to join to get the full activities of the year. Ask any member. He will tell you how.

HILLSBORO AT O. A. C.

Oregon Agricultural College, Jan. 13.—Registration figures for the Winter term bring the total enrollment for the year to a 102 per cent increase over that of the last normal year, 1916-17. The influx of 366 new students exceeded all expectations of the college authorities bringing total registration to date to 3285. Of this number 2878 are taking degree courses and 407 vocational training. Enrollment on the corresponding date in 1917 was 1623. Hillsboro contributes three freshmen beginning the Winter term, according to the preliminary forms for the student directory. Dan B. Erwin and Leon C. Allen are registered in civil engineering. Helen E. Killen is taking vocational work in commerce. Wilbur W. Weed.

U. OF O. NOTES

Good news can be reported to the parents and friends of the Hillsboro students attending the University. A careful inquiry has brought out the fact that everyone passed in all subjects. Two of them are included in a special list of fifty-six students who received H and S grades. The highest possible grade is H, which stands for Honor, and then comes S, which stands for Superior. The two that received S grades are John Dierdorff, 16 hours, and Ollie Stoltenberg, 15 1/2 hours.

Byron Garrett has been commissioned as a second lieutenant in the Reserve Officers Training Corps. At present he is in command of Company A. Sabres have arrived for the commissioned officers, so now "Barney" can be seen on the drill grounds carrying a sabre and giving the cadets "squads east and squads west."

Miriam Stockton registered in the University for the winter term. She has been pledged to the Alpha Phi sorority, and is majoring in music.

A recent edition of the Faculty Bulletin contained the interesting information that all the grades of the students for the winter term are going to be sent direct to the parents. The parents of Miss Ollie Stoltenberg have purchased a farm near Shady Brook, so Ollie is now numbered among the students from Hillsboro. She is secretary of the Nu, an organization composed of women looking forward to a business or professional life. Ollie is a junior, majoring in physical education, and stays at Hendricks Hall.

Herbert E. Scheidt.

SUMMONS

In the Circuit Court of the State of Oregon for the County of Washington. Thos. G. Gladding versus Frances M. Gladding. To Frances M. Gladding, the above named defendant:

In the name of the State of Oregon you are hereby required to appear and answer in the above entitled court and cause on or before the 1st day of March, 1920, said date being six weeks after the first publication of this summons, the date of the first publication thereof being January 15, 1920; and if you fail so to appear and answer the plaintiff will apply to the court for the relief demanded in his complaint, to-wit: For a dissolution of the marriage and marriage contract now existing between plaintiff and defendant and for such other and further relief as to the court may appear just and equitable in the premises.

This summons is served upon you

by publication by order of Hon. Geo. R. Hagley, Judge of the Circuit Court for the State of Oregon for the County of Washington, which said order was made, dated and entered on January 14, 1920. The date of the first publication of this summons is January 15, 1920, and the date of the last publication is February 26, 1920.

Wilson T. Hume, Attorney for Plaintiff, post office address, 426 Failing Building, Portland, Oregon.

Dated this 15th day of January, 1920.

Out of accumulated capital have arisen all the expenses of industry and applied science, all the machinery and machinery of the modern age. Upon it the world must depend for the progress of reconstruction in which all have to share. JAMES F. HILL

The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

IS YOUR BLOOD HUNGRY FOR IRON?

Who Should Take Nuxated Iron

Modern Methods of Cooking and Living Have Made An Alarming Increase in Iron Deficiency in Blood of American Men and Women

NUXATED IRON Helps Make Red Blood

The Kind That Puts Roses Into the Cheeks of Women and Force Strength and Courage Into Veins of Men.

"Is your blood starving for iron? Iron is red blood food. If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally go hungry for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood and who never suspect the cause of their weakness, nervous, run-down state. But in our opinion, you can't make strong, sturdy men and women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are to be taken up and assimilated by the human system. Nuxated Iron is the only iron that has been said and written on this subject by well-known physicians, thousands of people will profit by giving themselves with metallic iron simply. I suppose, because it costs a few extra cents, I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—before they go to the trouble of purchasing any iron in its original packages and see that the name (Nuxated Iron) appears on the package. If you have taken preparations such as iron and cod liver oil, or other iron products and failed to get results, remember

that such products are an entirely different thing from Nuxated Iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can walk or how far you can walk without becoming tired. Next take two Bergin's tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and you will find you have gained. Numbers of men, run-down people who were ailing, and all the while have increased their strength and endurance in two weeks' time while taking iron in the proper form.

Sold by DELTA DRUG STORE, and Other Druggists

NOW GOING ON Appreciation Sale

WE HAVE A RIGHT TO CROW ABOUT OUR HAM AND EGGS.

Truly an economic event. Figuratively speaking, this store is a direct representative of the Department of Justice at Washington, D. C., which branch of the government has been delegated with the task of bringing living costs down. Yes, indeed, this store is with the government and the people 100 per cent strong. This, then, is the consumer's greatest opportunity in Washington County to buy and lay in a supply of staple food-stuffs at prices less than today's wholesale quotations, which are represented in our present sales. Hurry in and get your share of these bargains. Sale will end when stock is exhausted, for we cannot replace our stock on the same basis.
