

## LIVED SEVENTY-FOUR YEARS IN COUNTY

John H. Cornelius, Pioneer of 1845, Passes Away

RESIDENT OF CORNELIUS

Was Son of Late Benj. Cornelius; Brother of Late Col. Cornelius

John H. Cornelius passed away at the family home in Cornelius, Jan. 16, 1920, after being confined to his room but two days, although he had been in failing health for some time. He was born in Missouri, Feb. 5, 1843, the son of Benjamin and Elizabeth Cornelius. With the parents he came to Oregon in 1845, the family settling in Washington County. Deceased was a brother of the late Col. T. R. Cornelius, the late Jesse Cornelius and the late Benj. and Wm. Cornelius, all of whom were well known pioneers and prominent in early county affairs. Of his immediate family a sister, Mrs. Bloom, survives.

Mr. Cornelius was married to Nancy Ellen Freeman, a daughter of Walter Freeman, Jan. 4, 1866, the wife passing Aug. 7, 1914. After his marriage he left Centerville, and moved to Cornelius, where he has ever since made his home. He was a carpenter by trade, and helped build many of the pioneer houses in that district. He is survived by the following children: Mrs. Geo. T. Reid, of Tacoma, Wn.; Mrs. Wm. T. Scholfield, Cornelius; Mrs. John Parsons, Cornelius; Mrs. James Miller, Cornelius; Mrs. M. Tibbitts, Chiloquin, Wn.; Robert Cornelius, of Cornelius, and Burr Cornelius, Gaston.

Mr. Cornelius was one of the valued members of Simonides Lodge, Knights of Pythias, of Cornelius, and represented the Lodge in the Grand Body many times in former years.

The Beovich boys had rented 5 acres from Burger. Sheriff Alexander has had the ranch under surveillance for several weeks, and sent Deputy McQuillan down to investigate the place. Mr. was successful and was about to get help to raid the ranch when he discovered it was in Multnomah County. He thereupon procured assistance from Sheriff Hurlburt. Last night Sheriff Alexander took charge of 162 gallons of Loganberry wine at the B. Sobolowski ranch near Whitford station. The wine is to be tested and if found illegal the owner will face a U. S. charge. He says he made it in 1915.

## HIGHWAY SIGNS BEING PLACED ON ROAD

Shute Savings Will Have Twenty Between Here and Rose City

PHONE RATES TO GO UP

Meeting at Hillsboro Club Last Night Discusses Live Issues

Last night's meeting of the Hillsboro Club was an interesting session. Chairman Shute, of the canneries site committee, stated that \$2200 had been raised out of the \$3100 which will pay for the road, and he said the committee would go out next week to finish up the raising of the money. He told of the company beginning, and how the deed would soon be made out. C. B. Buchanan said he was not yet ready to report on the telephone situation. Both C. E. Wells and J. W. Raynard reported that their companies are to ask the public service commission for a raise in rates.

Dr. Hyde reported that Multnomah County had agreed to put up signs at the Bertha junction, guiding people to this county. Mr. Shute stated that the Bank of which he is president, the Shute Savings, will put up at least 20 signs between here and the Rose City.

Dr. Hyde asked the club to be sure and get behind the law requiring vehicles to carry rear lights on the highway.

Before adjourning Dr. Robb was delegated to appoint a committee to confer with the physicians and laymen as to a county hospital. Dr. Robb holding that the time was now ripe for a big general hospital, this coming up as the result of a recent meeting at Forest Grove, when the county medical society took up the matter.

Messrs. Buchanan, Shute and Garrett were delegated to act as a committee at any coming hearing on telephone rates.

Nearly everything from the high cost of living down to a smoker to be given the American Legion was discussed, and the session adjourned at a late hour. Four new members were elected. The next meeting will be on the first Tuesday evening in February.

## A. J. RAY & SON ARE BUILDING CANNERY

Main Building Will be 370 Feet Long and 86 Feet in Width

TO BE MODERN, SANITARY

Structure Requires Big Lot of Material and Costs \$60,000

Sixty thousand dollars is the estimate of the cost of the new cannery building now under construction by A. J. Ray & Son, on North Range St., between Baseline and Washington. The structure will have a length of 370 feet and a width of 86 feet; one-story; absolutely a daylight plant; perfectly ventilated, modern and sanitary in every respect. Ground was broken last week and the building will be finished and the plant installed in time to take care of the 1920 product. The building will have 35,000 square feet of cement flooring, and there will be a boiler room and garage attached, 30x56. Hollow-tile block construction is the plan, with steel window sashes and frames, making it practically fireproof. A masonry wall will divide the operating room and the warehouse. The structure will require 31,000 hollow tile blocks; 800 barrels of cement; 700 yards of gravel and sand; 115 steel sash and frames, and the construction of the cannery alone, complete, will touch the \$60,000 mark.

The equipment and machinery to be installed will be new and modern, even to that taken over from the old plant, and all the plant will be the best that can be bought in the markets. The system will include two new Anderson-Barngrover Continuous agitating automatic cookers and coolers; two new Retorts, cherry steamer, cherry grader, three new closing machines, and an entire new line of sinks and conveyors; new and sanitary syrup mixer; storage tanks and syrups; electric hoist, a new boiler of much larger capacity; and all will mark a capacity of 75,000 cans in an 8 hour day, as against the old output in 1919 of its best day when 13,000 cans were turned out in 16 hours.

Two paved streets will lead to the plant, Baseline and Washington, and the S. P. will have a four-car siding spur, and the Oregon Electric will install a twocar spur. The raw products will be received on the Baseline entrance of the cannery and worked thro to the warehouse by the use of a conveyor to the Washington St. end where the warehouse rooms are to be located.

Actual construction started Friday and work will be speeded so as to have all in working order as soon as the first 1920 product is ready for canning.

Messrs. Ray & Son are doing their part and all who want to see the section grow hope that the community will respond in a big increase of acreage of canning production.
