

## HOUSE LOOTER TAKEN BY FRANK WAIBEL

Henry Clark, Discharged Soldier, Robbed Case Home Sunday Night

## RUNNING FIGHT FOR BLOCK

Waibel Finally Put One Over on Clark's Mug and He Was Good

Henry Clark, a discharged soldier hailing from Portland, robbed the Mrs. Josephine Case house in East Hillsboro, Sunday night, and was captured by Frank Waibel (with Emmott Bros.) after a running fight of a block. When Mrs. Case returned home late Sunday evening, she saw that the lights were on in the home and discerned a man in the front room.

She at once called Mr. Waibel, who rushed to the rear of the yard. The looter came out and turned away from where Waibel was, crashed through some Himalaya briars, made it over the fence, jumped into another yard, and then disappeared. Waibel ran to the street intersection and Clark finally emerged from the darkness. Waibel tried to stop Clark, but the thief broke and ran toward Fir, with Waibel after him. Clark fell into a ditch and Waibel fell behind him, but he soon caught the fugitive, and for a while it was "nip and tuck" to who was going to capture the other. Waibel threw the man, and Clark turned him. Waibel finally got him down and called for help. Clark said he would go with him, but when Waibel released his hold he again started to make his escape. Waibel then threw the chap and a minute later, passed a short arm jab to the jaw, and Clark was hors du combat. Grant Landess, attracted by the call, then arrived and the two held the prisoner until Dr. E. H. Smith came in his car and they took the thief to the bastille.

His discharge papers were found on his person, and the sheriff's office relieved him of a gold watch which belonged to the late M. C. Case, as well as a fountain pen.

Clark had been in the Schmeitzer home earlier in the evening, and had filled his pockets with doughnuts.

Clark would say nothing of his antecedents, nor would he tell from whence he came, except to admit that he came out from Portland.

He is aged about 30 years. His face carried a nasty cut received from Waibel. Operator Hagele assisted in hunting the

chap down, and was watching the corners south when Clark ran in to Waibel.

J. J. VanKleeck, of Kinton, was up to the city Monday afternoon. J. J. says that in places the cold has injured winter grain in his locality, thinning it considerably.

Mr. VanKleeck and his sons, who own the championship cow in the Jersey senior yearling class, have another heifer with her second calf which is coming to the front. She made 87 pounds of butter fat in her first month of milking this year.

## PORTLAND AUTO SHOW MONDAY, FEB. 23, TO 28

Biggest Show Floor Space in the United States

WILL HOLD IN ICE PALACE

Truck Show to be Held in Armory Few Blocks Distant

H. C. Peterson says some idea of the size of the big automobile show to be held in Portland the entire week of February 23 to 28 may be gained from the fact that the Ice Palace, where the motor car part of the show will be held, is the largest show room on a single floor in the United States. Its 300x130 feet, without a single post to obstruct the view, give more space than is available for cars even on the main floor of the huge Coliseum Building, in Chicago, which is 300x120 feet in size.

But large as it is, the Ice Palace can accommodate only the passenger car section of the Portland Show. A year ago, both passenger cars and trucks were shown on the same floor. This year there are so many passenger car exhibits, and so many special models, that the Ice Palace will be devoted exclusively to passenger cars, while trucks will be exhibited in a separate truck show in the Portland Armory, a few blocks away.

The passenger car show in the Ice Palace will be by long odds the most complete ever held in the Pacific Northwest, and the truck show will be the first exclusively truck event on the Pacific Coast. Both will be under management of the general show committee, and one ticket will admit visitors to both shows without additional cost.

In the passenger car show there will be a total of 69 different makes of cars, to say nothing of the fact that at least 170 different models will be shown. The Portland show will contain almost as many different makes of cars as were exhibited at the recent New York show, the big event of the year in motordom.

Eighty different makes of cars were shown there, as compared to 69 at the coming Portland show.

There will also be 50 different makes of trucks, and approximately 100 different models on exhibition in the truck show.

The paved road makes it possible for many from this county to attend this big exhibit.

## NEWSPAPER CONSERVATION DAY PUBLICITY

One of the most remarkable recent movements to attain national prominence is the one that has for its object the pointing out of methods by which motorists may obtain increased mileage from their tires.

One would imagine that tire dealers would be pleased to have tires wear out quickly, so that new purchases would be necessary. But this is not generally true. There is more rejoicing to-day over one car owner whose tires run 10,000 to 15,000 miles, than over a hundred whose lack of care prevents them from getting many miles they are entitled to.

This national tire conservation movement will reach Hillsboro on Saturday, February 14th, when Tire Conservation Day will be observed. Carrying out the idea of helping all local motorists to secure more service from their tires, F. E. Harttrampf and M. P. Cady, of Hillsboro, have arranged to have an expert from The Good Year Tire & Rubber Company, present at the demonstrations, who will give an entire day over to the consideration of the tire problems of all local motorists, pointing out the most insignificant repairs which, if made in time, will add immeasurably to tire mileage. The tire difficulties of each motorist will be given individual attention. These demonstrations will be held at M. P. Cady's Garage.

Sections of tires will be exhibited, showing the different kinds of wear that tires are subject to, and the methods of combating them. Tire construction will be followed from the crude rubber of the forest to the finished tire, ready to start on its career of service. There is nothing mysterious about tires, and therefore, no good reason why motorists should not know all about them, and be

saved many of the disappointments they experience when discarding tires which have proved away before their time.
