WHY NOT "YES?"

The four per cent. road bond issue measure is getting much discussion these days in local circles. Careful mathematicians are figuring that the auto license tax and the gasoline tax will surely allow the state to issue bonds up to the limit of $40,000,000 for state highways. So, it appears, so far as dead reckoning is concerned, the measure will not cause a raise in taxation, either on property, or on the machine licenses, as now fixed by law. The vote will be held May 21, and if carried means pushing through the state highways to completion in a very short time. It appears that this can be done only by constitutional amendement, and as the autoists may pay the bill the man who isn't a machine owner should vote "yes" anyway.

USL STORAGE BATTERY SERVICE

Golden Rule Service

Service is the one thing that we sell—service in line with the Golden Rule

WE distribute this same Service to *all* car owners and to all makes of batteries without discrimination.

When you pay money for a new USL you are buying Golden Rule Service, of which the battery is but an essential part. It's just the same as paying your employees, your lawyer, your doctor, your dentist—for Service.

Service is the most important thing in the world today. To all car owners, we aim to be the "greatest Servant of them all."—Our Golden Rule Service, we think, makes us so. But we invite your careful co-operation in caring for your battery so as to assure you long battery-life.

Often when a man thinks his battery is "done for" and he is ready to buy a new USL, we show how we can save him money by repairing his old battery and giving an adjustment guarantee for eight months.

We sell only USL Batteries with the durable machine-pasted plates. The factory ships them to us "Dry-Charged." This avoids all before-sale deterioration so that you really get a perfect, full-life battery.

We are a USL Golden Rule Service Station—not a battery-store

A CARD

Editor Argus: I read with a good deal of interest the article in your last issue under the caption "All Ready Feeling Highway Effect." You have certainly put this matter up to the people in a concrete way.

May I take the liberty of saying that it occurred to me that there was only one thing left unsaid—the inevitable conclusion from the business side of your article is that the people of Washington County should vote for the amendment to the constitution raising the indebtedness limit for roads from 2 per cent to 4 per cent? Unless this is done there will be no more roads built in this state at the present time.

If Hillsboro has already felt the beneficial effect from the road routing out of Hillsboro in one direction only, what is likely to be the effect when the road is completed through from Hillsboro to McMinnville and Corvallis and south? They would have people coming into Hillsboro not only one direction, but also from California and the southern part of the state of Oregon.

The passage of the amendment is necessary to complete this system of roads. During the past two years I have worked with the road boosters of Washington County in a co-operative effort to secure the building of the West Side Highway from Forest Grove to Hillsboro and now I want the Washington County people to work with me for the building of the road from Forest Grove into Yamhill County and further south.

I hope you will give considerable space to the discussion of the amendment and that you will particularly impress upon the people the fact that this amendment will not add $1.00 to the general taxes and that the new bonds will be financed as the old bonds have been out of automobile licenses, gasoline taxes, etc.

With regards, I remain,
Sincerely,
W. B. Dennis.
