THREE WANT DIVORCE

Gertrude Spady has sued George Spady for divorce, alleging they were married at Vancouver, Wn., in Sept., 1917. She swears that he has refused to buy her clothing, and that since marriage he has purchased her but one dress. She says she was compelled to work in the laundry in order to get money to buy her necessary raiment. The plaintiff also says the husband refuses to pay for a necessary surgical operation and one she must have in order to have health. She wants the decree, the custody of a child aged two years, \$150 suit money, \$50 maintenance money during suit pending, and \$55 alimony, permanent for herself and child. She says he makes \$125 per month and can afford to make the payments asked.

Harry L. Christenson wants release from Maizie Christenson. They were married in 1911. There are no children, and no property rights to determine. The husband says the wife has a bad temper, and has threatened to "get" him. He says she threw toast across the table at him and also spilled the coffee all over his clothes, and he wants to have Maizie removed from him—a contemporary of Mrs. Jiggs.

Celesta Huhman sues Louis Huhman for separation. They were married two years ago. She says he has a bad temper and is jealous of her. According to the complaint, Louis went to a dance when she was ill. He also told her that he didn't love her and was sorry he ever married her. There is an 8 months old child, of whom she asks the custody, and she wants the Court to make Louis pay her \$25 per month for its support, and she desires \$100 suit money. The complaint alleges that at one time he threatened to strike her.

NEW RULING

Under a recent ruling by the Treasury Department the tax on toilet preparations and patent and proprietary medicines is based upon the selling price of each article and not upon the total price of a number of articles. If a person buys five packages of 5c cough drops, a 1c stamp must be attached to each package. If a person purchases a tube of tooth paste for 35c and a bottle of perfume for 65c, a 2c stamp must be placed on the tooth paste and 3c on the perfume—a total of 5c. In other words, the tax is on each article and not on the combined purchase price.

This revokes a ruling previously made by the Department.

Poultry, O. A. C.—Reports have been received by the poultry department of the college that the state is being systematically worked by agents who are selling remedies, sprays, and disinfectants. In some cases it is reported that the agents represented themselves as agents of the college, and their plan of operation seems to be to visit the farmers or poultryman as poultry experts and offer their services. The methods recommended, as reported to the college, for the destruction of pests are practically worthless, and the prices charged for the disinfectant or sprays are exorbitant.

Plant Pathology, O. A. C.—The college has issued several late spray bulletins for information on the spray program for various diseases and pests. These will be sent free upon request. It is the worst possible economy to try to save time or materials in spraying. The result is almost invariably more sear and worms. One must cover every bit of surface as thoroughly as possible if full protection is to be secured.

J. C. Lamkin has bought the Wilkes Abstract brick building, just East of the Court House, on Second Street, and will move his tinshop into it early in June. Percy Long has bought the building which Lamkin has used for a shop for many years, and which stored his tinshop tools during his incumbency in the post office.

Dr. Thompson's examination of the eyes is as perfect as skill, science and years of experience can devise. A specially ground lens for each individual case. When your oculist fails, consult him. Friday, June 4, Washington Hotel all day. 13

Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3, 30x3½, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$4.50 proof bag
