

Entered at the Post Office at Hillsboro, Oregon, as second-class mail matter.

Subscription, \$1.50 per annum.

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long.

Hillsboro is awakening to the fact that civic improvement is a mighty good thing for a town that has aspirations. The vote at the polls yesterday goes to show that the average citizenry of the city is looking forward to a better future, and the assent to improve the town's natural playground and make it a place of comfort and pride is a matter in which Hillsboro can take pride. Now the good work will start and by next Spring we shall have something of which we shall all be proud.

If one is to believe all one says of the other back at Chi we really don't need any of the Wood-Lowden-Johnson trio for a candidate for the presidency. And the shame of it, too, for the Oregonian's social correspondent at Chi to tell us Br'er Lodge could get no "thrust" in his keynote speech."

**TAKES VACATION**

Mr. and Mrs. John Vanderwal returned Monday evening from a visit to Eastern Oregon and Idaho points. They were at Nampa, Idaho, and visited with Fred Schomburg and family, and John says he found the Washington County people there, the Schomburgs and the Hergerts, doing finely. He says he would surely be farming up there if he were able to work, as the crops look fine, with heavy production. John is enthusiastic about it and even talks in his sleep over it. He states that Henry Fooren, formerly of the Todd farm, Forest Grove, went into Nampa on his train, and bought a farm. He rents the place and goes to Belgium to visit relatives. The renter is Mr. Bush, a brother-in-law of John Vanacker. John is at

his desk in the Heidel Building, taking care of his insurance, and is ready to tell you all about his trip if you'll just go up and see him.

This was John's first vacation in 30 years.

**GAS RATIONED**

Taken up thro the Hillsboro Club, so that industrial pursuits would not suffer unduly, a gas administrator for the town has been named. N. C. Jamison will have his cards ready to issue permits by tomorrow morning. Those wishing gas will have to get permits from Mr. Jamison at his office—County Agent's Office—on Second Street, and they will be honored by the filling stations in accordance, provided, of course, there is gas on hand.

**CONTAGIOUS DISEASES**

The health laws of the State of Oregon require the reporting of the following contagious diseases by physicians in charge of cases:

Chicken pox, diphtheria, erysipelas, german measles, influenza (flu), measles, mumps, pneumonia, scabies (itch), scarlet fever, small pox, tuberculosis, whooping cough.

It is not incumbent upon any one to call a physician for the sake of diagnosis or treatment of these cases, under the law, but the cases must be reported to the county or municipal health officer in any event. The responsible party, if a physician is not called, is the head of the household, in which, the above diseases exist. He is supposed to have the necessary intelligence to make a diagnosis, if he assumes the responsibility of the care of the diseases enumerated above, in the absence of an attending physician.

Severe penalties are imposed under the law for the violation of the health laws relating to the above diseases. It is with the belief that lack of information is the cause of most violation of the law that this bulletin is issued.

All reports made to the County Health Officer, relative to the above, will be used in the interest of public health.

Make reports without delay.  
Dr. L. W. Hyde,  
County Health Officer,  
Hillsboro, Ore.

**What a lot of argument there used to be about a woman driving an automobile**

**T**ODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of known value and stick to it.

We recommend and sell U. S. Tires because their value is known.

There's no guess about it.

It was the U. S. quality policy which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the greatest additions to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

ROYAL CORD-NOBBY-CHAIN-USCO-PLAIN

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.
