Ohio is bound to have a president this year, anyway.

A Roosevelt was bound to be on the ticket, anyway, and that's some glory for New York.

Both presidential candidates are printer-publishers—some recognition of the art preservative.

Old Ohio, conducting two "front porch" campaigns, is liable to get swelled up so badly that all the buckeyes will burst.

That convention evidently took Mr. McAdoo's word for it that he was not a candidate. But at that, in no way discounting Cox's running strength, the Argus thinks McAdoo, Oregon's choice, was the stronger candidate of the two.

Oregon promises bounteous production this year. Western Oregon never had better prospects for a big crop, and the Eastern Oregon wheat fields will bear splendidly, by and large. At that, one must remember that an Oregon poor crop is always as good as an Eastern good crop.

URGE EXAMPLE OF SELF-DETERMINATION

That friends of Irish independence in the American Congress could make a more effective impression on Great Britain by granting Philippine independence than by merely expressing sympathy with Irish aspirations is the suggestion contained in a statement issued by the Philippine Press Bureau of Washington, D. C.

"Twice in a period of a few months," reads the statement, "the United States Senate went on record as being in sympathy with the aspirations of the Irish people for a government of their own choice."

"Still another way for the friends of Irish independence in the American Congress to make an impression on Great Britain would be to grant the independence of the 10,700,000 inhabitants of the Philippines, have representatives in the American Congress officially report on the Philippine independence and have recommended that such independence be granted."

A fire started near the Sherman Lumber Co. mill, in South Tualatin, at 4:15 last night, and inside an hour had swept the woods nearby to Laurel. Fifty men, among whom were several from Hillsboro, finally held the flames in check. The direction of the wind saved a big lot of wood as well as the mill and yard itself.
