OREGON PIONEER DIES AT GLATSOP PLAINS

Joshua West, Who Settled Here in 1855, Reaches Trail's End

WAS DAIRYMAN OF NOTE

Had Traveled Extensively and Made One Trip to Europe

Joshua West, one of the most widely known of Oregon's progressive dairymen, died at his home at Clatsop Plains, below Astoria, died August 10, 1920, aged 89 years. He was born in New York, March 21, 1831, and when a young man moved to Wisconsin. In 1855 he crossed the plains to Oregon and settled in Washington County, near this city. He was married to Lavinia Harrison, at Forest Grove, in 1862.

He is survived by five daughters and three sons—Mary Peterson, wife of Chris Peterson, of near Leisyville, on Route 3; Mrs. Maud Prescott, Washington, D. C.; Mrs. Daisy E. Fulkerson and Mrs. Bess Johnson, Seaside; Mrs. Violet Adams, Clatsop, Oregon; Lloyd West, Brownsville, and Willis J. and Paul H. West, Seaside. He leaves fourteen grand-children.

Mr. West was highly respected and his acquaintance was statewide. He was possessed of a splendid brain, had a quaint humor that won him many friends, and he was noted for being one of the best after dinner talkers in the state. He had traveled widely and a few years ago made a trip to Europe. On his return he made the remark—"No country can beat the United States and no state can beat Oregon. When the gods sent me to Oregon they sent me to the right place."

Mr. and Mrs. Peterson and family departed Tuesday evening for Clatsop Plains to attend the obsequies.

Ford touring car and two extra good buys in used cars.—D. Corwin.

A. Sipp, of above Mountaindale, was in the city Tuesday, an interested listener at court where he says it is mighty easy for the judge to say "twenty dollars."

Strayed—From the Wm. Bagley ranch, 3 1/2 miles northwest of Hillsboro, a white Cheshire sow, erect ears; metal tag in right ear; weight about 400. Please notify Geo. B. Bagley, Hillsboro. 24

Mr. and Mrs. D. B. Emrick and Mrs. C. E. Koontz departed Tuesday for an extended stay at Rockaway beach. D. B. went over loaded with fishing tackle and the necessary implements to dig clams, to say nothing of the pitchfork for crabs.

For Sale—Modern 11-room house; electric lighted; gas easily installed; on lot 70x198; good garden and fruit; kitchen range and some furniture, prices of which can be arranged. For price and terms, inquire at 1226 Main Street, Hillsboro—this is a bargain. 21-23

She crossed the plains from Illinois in 1852 and settled on a donation land claim at Molalla, and still resides on the original site. During the day many friends in this district called to extend congratulations and best wishes. A splendid dinner was served. BIG STEAM SHOVEL SHIPPED FROM OHIO

County Buys Big Machine for Road Fills—Badly Needed

WILL WORK THIS FALL

Nine Hundred Feet South of the Tualatin Bridge, Jackson Bottom

The county court has purchased a big steam shovel for county use and it was shipped from Marion, Ohio, this week, and should arrive by September 1. As soon as it can be set up work will begin on 900 feet of fill to take the place of that distance of trestle on the Jackson Bottom, a mile south of the city.

Pits will be procured from Messrs. Rosecrans and Lisco, a short distance south of the work, and earth will be dumped from the bridge floor. The top of the grade will be four feet wider than the bridge floor, and the center will be filled from earth taken from the grade just beyond the bridge.

The 4,000 feet this side of the river span can also be filled with earth and save putting in bridge work every few years. Within four years and the entire stretch of bridging on this bottom would have to be renewed, and it is felt that filling is the proper and most economical thing to do.

On the Dairy Creek bridge, west of Hillsboro a mile, at least 1200 feet can be filled later on, and this structure, too, will have to have attention in a short time.

The machinery and freight will cost in the neighborhood of \$14,000.

Work is to begin on the 900 ft stretch as soon as the shovel arrives, and it is hoped the filling will be completed this fall.

Other Court Notes—

Roads Nos. 762, 763, 764, 765, referred to the district attorney's office.

Clerk Kuratli reported \$734.44 fees for July, and Recorder Everett reports \$566.50 for the month.

The court expects to finish the racking of the Forest Grove-Gaston road this fall. Laying of crushed rock has commenced from the Gaston end and the Gales gravel force is hauling from the dug hill at this end. In ten days the road will be racked clear to Dilley, and the two forces should meet by the 15th of October. Gaston will welcome the improvement as this will mean that the days of marooning in Winter time is over.

Hardly a day passes but the city is receiving a visitation from beggars. There is an ordinance against publicly seeking alms, but these people take quite a little stake out of the town every time they make the rounds.

Dwight Pomeroy, of near Leisyville, and his brother-in-law, Henry Leisy, were greeting their friends in town Friday afternoon. Henry is spending the summer in the valley just to remind him of boyhood days.

S. A. Cooper, of Laurel, was greeting friends in town the first of the week. Cooper is ranching these days, but says that every time he hears a train whistle he wants to reach up and pull the wires leading to an imaginary semaphore.

Father Costelloe, of St. Matthews' Church, recently wrote from Skagway, where he is making a visit while recuperating his health. He expects to return this fall much improved in health and able to take up the duties of the parish.

Mr. and Mrs. J. D. Anderson, Mrs. Ludmia Anderson and Miss Elizabeth Gheen formed a party that visited Hood River, Sunday, and Dr. Helms and family and their guest, Mrs. M. H. Thompson, another party who saw the beauties of the Columbia River highway as far up the river.

The Bend newspaper has a neat little account of the advent of Mr. and Mrs. Wm. Tupper's experience on their trip into LaPine, on an auto stage. The concern broke down and mail and passengers had a nice little wait before another machine was procured. But Tupper was more than laconic, putting in his time chasing a flock of prairie chickens.

Robt. Simpson, of Buxton, and Will Jack, of Hillsboro, returned Tuesday from Tendoy, Idaho, where they have been working on their mine. The boys report a fine prospect and expect to start shipping ore next season. Simpson says that one mine on the same lead as theirs recently shipped out a carload of ore that went its ten thousand. Bob has been at the mine 13 months, Jack going in this spring.

HONEYMAN HARDWARE AND LOCALS ONE EACH

Double Header at Hillsboro Legion Grounds Sunday Last

KRIETZ WORKS IN A GAME

Legionnaires Will Play Kirkpatrick's Next Sunday at Hillsboro

Local fandom had their money's worth last Sunday at the Legion grounds, when the fast Honeyman Hardware team played the locals a double header. Gray and Cota were the battery for the first game, and although the little southpaw played shutout ball, the game went to the visitors 3 to 2, errors to the tune of six giving them the game with no earned run.

Cota caught good ball and played a fine game, avoiding the error column. He is very fast on his feet and has a good arm. He played at short in the second game and hit the sphere on the nose. Krietz looked good behind the bat in the winning game. He is a bear of a catcher and slammed out two two-baggers out of four trips to the plate. Koppel was in good form and had his head working fine in both games.

On Sunday, August 15, the Kirkpatrick's will play at Hillsboro. The locals will play four more games, the coming game Sunday, a double header with the Ironworkers and one game with Sherwood, the date of which will be announced later.

NEW COUNTY AGENT

O. T. McWhorter, recent county agricultural agent at Montesano, Wash., has been appointed County Agent for Washington County, to succeed Neil Jamison, resigned. Mr. McWhorter comes highly recommended and will assume his duties September 1. The retiring agent states that Mr. McWhorter is splendidly qualified, and will be an asset to the county.

ARMY RIFLES CHANGED

Twelve hundred American Springfield rifles, said to be the best pattern in the best pattern in the world, have arrived for use of the military department at the Oregon Agricultural College. These arms displace the modified Lee-Enfield, known as the United States army rifle, used in the recent war. The new type is the same as that used by the American riflemen in winning the world championship in shooting at the Olympic games this year.

BETTER HORSES

Twenty-six cavalry and artillery horses have been sent by the war department to O. A. C. in exchange for a like number that proved to be "conscientious objectors." The outlaw bunch refused to do military duty. The new lot are tractable, and well suited by size and disposition to the double duty required of them. The war department also sent saddles and other equipment for the authorized increase of the cavalry unit from 74 to 125 men.
