Abraham Zahler, of Helvetia, was an Argus caller Wednesday.

Dr. J. R. Dinmore has received an analysis of the waters from Rippling Waters, from the State Board of Health, and the report shows that the aquas is free from typhoid germs and no trace of colon bacillus was found. This sets at rest the reports circulated that the water of Gales was impure. Rippling Waters is one of the favorite swimming places of the county, and the rumors going around called for an analysis. Last Sunday nearly 400 visited this place, now conducted by the Oppenlanders, and it is one of the beauty spots of the stream. Go and swim all you wish—but the water is beginning to get a little bit "ouchy."

All grades of powder have advanced \$1.25 per hundred. Having a limited amount on hand I will sell at the old price as long as it lasts. Customers intending to do more grubbing should get what they want now. It will be higher next fall.—W. L. Stevens, Laurel Store. 21f
