

PREPARE NOW

Thoughtful people in the United States see that there is no possible way for the United States to keep out of a rightful position in world affairs. In these days of air travel, rapid transportation by rail and water, the wireless and every condition that goes to make the world progressive, a war between European or Asiatic powers is so fraught with danger to American commerce and American rights that we must meet world affairs face to face. We were dragged into the last war because one power sought to blockade the others through submarine warfare. We again shall be dragged into war unless we can get into the game and get in to the world game properly. The League of Nations was sought to make war harder to start, and no thoughtful person thinks otherwise. We would have been aligned with the powers which fought with us side by side to conquer territorial lust in which even our own country was threatened. Let us face world conditions sanely, and not listen to the Lodges, the Knox's and the Smoot bunch, who oppose only because they have a partisan hate for Mr. Wilson. Let us fend against conditions that will mean the further sacrifice of American lives. The American who puts country above politics will not let "party" bias a vote in the right direction.

About the only presidential candidates who are not sure of election this year are Christensen, Mr. Debs and the prohibition candidates. There's nothing like optimism.

MRS. GEO. F. BRAZELTON

Mrs. Geo. F. Brazelton died at the family home, a mile south and east of Reedsville, August 24, 1920. She was born in Jefferson County, Tenn., January 1, 1873. She was wedded to Mr. Brazelton March 20, 1911. The husband and two brothers survive her—John Cokenour and T. Cokenour, of Jefferson County, her native state.

The funeral took place Wednesday, services being conducted at the home by Rev. Gelvin, of Orenco. Interment was in the Fellows Cemetery at Hillsboro. Undertakers Donelson & Bell directing.

Mrs. Brazelton was a universal favorite and the high esteem in which she was held was attested by the large concourse of friends at the obsequies.

Strayed—One large type Poland China boar from Fair Acre Place. Please notify S. A. Lasselle, Hillsboro, Oregon. Phone 2371. 23 25

Wells have suffered the past fortnight owing to the drought. Well diggers have had more calls for deepening wells than they can answer and as a result there is a scarcity on a number of ranches.

Free Methodist Church, John G. Hessler, Pastor—The pastor will occupy the pulpit again on Sunday, morning and evening; prayer meeting Thursday night; Sunday School on Sunday at 10 a. m., followed by preaching; evening service at 7:45.

Albert Schmidlin, of above Buxton, near the Columbia county line, was in the city Friday. The new school house in District 29 is completed and the big flag pole is a matter of pride to the patrons of the school. The flagstaff is perhaps the tallest of any in the state of Oregon, and measures 232 feet.

Tom Henton, of Meek Plains, was in town Friday. Tom had two acres of wheat which yielded 57 bushels per acre, and 14 1/2 acres which averaged 45 bushels per. The two acres certainly backed the Palouse country off the map—and at that up there a farmer farms one year and lets that particular acreage rest a year.

The county is busy putting rock on the road from the Tom Bailey place, near Groveland, on West to the Joe Connell ranch, and in a few days macadamizing the road from Frank Holcomb's place West to Groveland will begin. The amount to be laid will depend on the rock which can be crushed and weather conditions suitable to hauling. The court is now planning to run a road from the Rich place near Orenco, on South to Reedville, so as to give the Plains people from Orenco North a channel to the state highway.

Light Your Farm Home And Farm Buildings

Why grope in the Dark when you can have Light? The Winter is coming on and you will need the "best there is" on the farm. Our

Western Electric Lighting Plant

Is the Latest and Best for a farm and outbuilding lighting plant. Our 180 Hour Ampere Battery will do the work.

3 1-4 Horse Power Gas Engine

Will be your power to generate. When properly charged you can have lights for two weeks before again starting your engine. If you already have an engine large enough you can save the price of ours.

Let Us Demonstrate

There is no reason why you should not have all City Conveniences on your farm. You live but once—why not live in light when you need it? Save time and labor. Some testimonials—

"The direct connected farm lighting plant purchased from you has been operated with the utmost of satisfaction. We believe the plant is, without any doubt, the very simplest plant upon the market. It is simple without having to discard necessary parts, such as governors and extra bearings. The whole plant has operated so beautifully and given a light so brilliant that every person with city electric light, who has seen it has marvelled at its efficiency. They confess that a lamp of certain watt capacity gives us more light than they can get from such a lamp. We have surely been converted to the ideal light and others as fast as they see it believe that they will soon be the owners of their own safe, low voltage outfit."

E. Balderston & Sons, Colona, Md.

"We are very pleased with the plant, as it furnishes plenty of power and light. We are going to install one of your Western Electric water systems in a short time, as there are several in the vicinity and they are satisfactory."

H. J. Blodgett,

Rigby, Idaho. "Anyone cannot go wrong by installing a Western Electric outfit. It does everything I need in the way of a power and light plant."

Royal Ellis,

Rigby, Idaho. "We find it a saving of time as well as a very great convenience, and especially do we appreciate the light at the barn. It is much less trouble to charge the battery than we expected. This power and light outfit will certainly brighten the home and the farm."

Fred May,

Wilmington, Vt.
