**LAWSON**  
Odorless Gas Heater.

Here's the radiant heat room heater. Different from all other gas stoves! Its red hot inner combustion chamber—the "glowing heart"—sends out penetrating radiant heat waves—like the sun.

No open flame! No deoxygenated room atmosphere—but pure, fresh, invigorating air. Radiant heat goes directly to surrounding objects; does not rise.

The LAWSON Odorless consumes all the gas, at high temperature. No fuel waste; and absolutely no odor. Bed room, living room, hall and bath—any room—heated quickly and economically. Heats from both sides.

The LAWSON Odorless takes up little space; yet gives out more heat than ordinary gas stoves of larger size and higher price. Costs less to buy and less to use.

Call; let us demonstrate the LAWSON Odorless.
