County Official Paper

Entered at the Post Office a Hillsboro, Oregon, as second class mail matter.

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long

The National Farm Bureau is assuming mammoth proportions, and the sooner the business world recognizes the worth of the movement the better it will be for all who live off and from the farm industry. When farmers are prosperous the business world is prosperous, and if elimination of a few unnecessary middlemen is accomplished no harm will be done. There are many grave questions up for farm study and one of them is the relation that labor has to production. Without good wages to labor the market for that which comes from the farm is crippled. This is so axiomatic that the sooner that farmers and laborers, skilled and unskilled, get together, and work in common cause, the better it will be for all classes that do things. The "big fellow" with collateral, or paper calling for it, can take care of himself, thank you.

Scarcely a nation of importance in the world is there that is not carrying a staggering load of

debt, much of it imposed by the circumstance of the world war which Germany started a few years ago. A thousand dollars of debt per head for each man, woman and child, is not uncommon—and yet there are politicians who still want to settle international affairs in the old way, the arbitrament of cannon and poison gas. When will the world awaken to its folly and stop building huge war machines, and great armadas, and give the people of the world a breathing spell. Why balk at the world "league" and quibble that it should be called "court" or "tribunal."

Portland politicians are still trying to groom a candidate to run against Ben Olcott in the gubernatorial primaries. The Argus is of the opinion that these gentlemen are losing a great deal of valuable time. Ben generally starts when he wants a thing and when he starts he generally finishes.

THE BUICK

The Buick name is the Buick's best salesman, and Buick 1921 models have added prestige to that name. The new models possess the known Buick reliability to meet every condition of travel. To that reliability there is added comfort resulting from improved seating arrangement and spring suspension and easier control of mechanism. And the new lines are beautiful. Each car's reliability is re-enforced by authorized Buick service. The regular equipment on all models since January 1 includes cord tires. You should see these new models to appreciate them.

**SALE
OF USED CARS
AND TRUCKS**

We have made up our minds to reduce our used car and truck stock down to a minimum and do it without delay. Hence we are conducting a big special sale and have made positive cuts in prices ranging from 15 to 40 per cent.

Overhauled And Re-finished Used Cars

We have adopted the policy of putting our used cars in good shape before selling them and with but one or two exceptions every car in the house has been thoroughly overhauled, worn parts renewed, needed adjustments made. Every car must pass a rigid inspection mechanically. Then we repaint the bodies, wheels, redress the upholstery and the top and the result is a car that is often taken for new.

Big Variety From Which You Can Choose

While our cars are moving rapidly we still have good stock to choose from. Light Mitchell Sixes in five, seven and Roadster Models. In fine shape yet going at rock bottom prices. Overlands, Chevrolets, Buicks and other light fours. In trucks we have one, two and three ton sized of standard makes priced way down for this sale.

No Cars Withheld---All Prices Cut

We have red tagged every car in the house and tags show former and sale price so that you can easily figure the big saving we are offering motor buyers on the eve of the Spring and Summer driving season. The saving is big enough so that you can afford to take a day off and come in and make your selection at this sale. It will pay you to hurry.

TERMS GRANTED

We will make reasonable terms on any car in the house or will take your old car as part payment if it is saleable.
