## CHAUTAUQUA DATES

That the Chautauqua program for the coming season holds much of interest for the lecture, music and entertainment lovers is indicated by the advance information from the Ellison-White Association. The dates for Hillsboro have been definitely set for July 15th to 20th.

The announcement that Mary Hays, noted New York coloratura soprano, is coming to Chautauqua this season with her own company of Grand Opera Singers, is of particular interest. Miss Hays is well and favorably known in the West. She is easily one of the most popular singers on the Chautauqua platform. She brings with her three soloists of prominence in Eastern musical circles: Ruth Pearce, contralto, Claude Schell, tenor, and John Wainman, baritone. They will present excerpts from light and grand opera, as well as many ballad selections and regular concert classics.

Another splendid musical organization scheduled during the week is the Lowell Patton Company, headed by Lowell Patton, the brilliant young pianist. Lucile Collette, sensational French violinist and concert artist featured by one of America's greatest phonograph companies, is a member of this group of artists. Lula Root, contralto, formerly with the Washington Opera Company, is the third member of this company, which will present two concerts on the third day. Other musical organizations coming during the week are the Liberty Belles of Boston, the Alexander Trio, and the Stone-Platt, Bragers Trio, with Electra Platt, the great monologist, as a notable member.

The great comedy success, "It Pays to Advertise," presented by the Keighley New York Players, is one of the feature attractions of the week. Probably no funnier farce has ever been written than "It Pays to Advertise." In the hands of an all-professional cast, such as is scheduled for Chautauqua, it should draw a record crowd at the assembly.

The lecture list looks unusually interesting this year. Among the well-known names are those of Dr. E. L. House, noted author and psychologist, one of the really big figures on the American platform; Chief Strongheart, Indian lecture-entertainer, well-known "movie" and dramatic star; E. B. Fish, editor of "Labor and Industry;" Dean Ellwood C. Perisho, formerly president of the State College of South Dakota and Educational Administrator of the A. E. F., and Dr. Robert Parker Miles, noted correspondent and interviewer of celebrities.

## TAKE A SWIM

Take a trip to the old swimming hole, you fellows who are around the 50-60 mark," said Hillsboro's philosopher, the other day. "It will take you back to the years when the smell of new-cut hay meant something to you. It will furnish more pep than a dozen drinks of Oregon moonshine, and when you get there you'll feel your age slip off your frame as easy as throwing off a bathrobe. Then get out of your clothes and into a bathing suit—a gunny sack will do if you have nothing else—and back up about 20 feet. Take a run for the deepest part of the hole and go in head-first. The water will be a trifle nippy these days—but it will do you good. Come out and snort a time or two and then overhand crawl to the other side. Repeat the dose, and when you come out take a towel and indulge in a nice rub-down. Dry the water out between your toes and get into your duds. You'll feel a warm glow all over you and you'll wonder why gray hairs ever came to a man who lived within a mile of a swimming pool, and you will stick up your nose at the first advertisement of goat glands and wonder why old Ponce de Leon didn't fall into the creek and find that fountain of youth he hunted so many years. Try this recipe once and you will smile at your worst enemy." And with this the philosopher commenced hunting up that old bathing suit of the vintage of 1914.

# Which one of your neighbors gets the best mileage out of his tires?

**THE U. S. USCO TREAD**  
Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Pacific line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

EVERY once in a while you hear a motorist say as he kicks a rear tire with an admiring foot, "there's a lucky tire!" Give him a chance and he'll tell you all about it. And then you'll find that what he calls "luck" is simply his first experience with a quality standard tire.

It all comes to this—buy a U. S. Tire anywhere in this country and you get definite, predictable value for your money no matter what weight car you drive.

The man who has been guessing his way through "overstocks," "discontinued lines," "job lots" and the like, will find it refreshing to talk with the local U. S. Tire dealer who is concentrating on a full, completely sized line of U. S. Tires.

For the first time he will hear some straight quality tire facts—and get the difference between chance and certainty in tire buying.

The U. S. Tires he sees in stock are fresh, live tires. They come direct to the dealer from his neighboring Factory Branch.

There are 92 of these Branches established and maintained by the U. S. Tire makers.

Giving your dealer a continuous moving stock of new, fresh tires built on the certainty of quality first every time

"Fresh, live U. S. Tires come direct to the dealer from his neighboring Factory Branch."

"His first experience with U. S. quality standard tires."
