Hillsboro is destined to be a city of ten thousand in a few years. Situated as it is, in the center of the county, with population in the outlying districts increasing rapidly, its future is secure without a question. We need more city ground and the municipality should buy the property adjoining the city park while it can be purchased at a low price.
The Odd Fellows and Rebekahs made a fine showing in the Fourth of July parade. If other orders would follow suit in demonstrations of this kind, the fraternal societies could make a fine showing. The long line of three-linkers in parade, and the Rebekahs with their beautiful float and the members in parade, were credits to the orders. "Come again next Fourth."

The Pathe weekly at the Liberty last week contained a film of the big radio tower near this city. The picture showed Mayor Baker running the engine that carried the flag and flag hoister to the top, a height of 625 feet. This film is shown all over the world and this is certainly putting Hillsboro on the map in fine shape. The title carried the name of Hillsboro and stated that it was the tallest wireless tower in the world.
Before you paint your roof see C. J. Birdsell. He manufactures the Kant Barn paint, a fire proof and water proof product. He will figure with you and save you money over other paints, and he will apply the paint at cost, besides, and save you the trouble of hiring it done. Paint your roof with the best at less money. See or write C. J. Birdsell, 1246 Baseline, Hillsboro.
