The standard tire likes nothing better than to prove its service

PEOPLE used to be secretly envious of the young fellow who came tearing up the street and stopped his car with a jerk.

Now they are inclined to criticize such abuse of tires. A mark of the growing consciousness about tires—their service, their work, their value.

This same respect for a good tire is the reason why the four-square tire dealer has passed up odds and ends, "job lots", "seconds", "cut prices"—and come out squarely with the standard quality service of U. S. Tires.

He is getting a bigger, and also better, tire business than he ever had before.

He is dealing now with his own kind

of people. The substantial citizen. The man who knows that you can't get something for nothing. The steady customer—not the bargain hunter.

To the man who has not yet learned the standard tire service he is entitled to we say—

Go to the dealer in U. S. Tires and make him show you.

Here is a man in close touch with one of the 92 U. S. Factory Branches—a constant supply of fresh, live U. S. Tires.

The U. S. Tire you buy is a tire built for current demands. No overproduction. No piling up of stock. No loss of mileage by hanging around on the dealer's racks.

Every way you look at it, a par quality tire at a net price.
