

FORMER CEDAR MILL WOMAN IS DROWNED

Mrs. Robert Whitesides Succumbed After Being Rescued

LOSES LIFE AT ROCKAWAY

Thos. Todd Assists in Getting the Lady Out of the Surf

Mrs. R. I. Whitesides, of 63 Jessup St., Portland, was drowned at Rockaway Beach, the result of getting into the surf over her depth while bathing yesterday. Mrs. Whitesides was bathing with her daughter, Marie, and her sister, Mrs. Anselma Hogg. The little daughter saw her mother get out in deep water and called for assistance. Three boys responded, Ray Peterson, Delbert Kountz and Norman Olson, but their combined efforts were of no avail and Mrs. Whitesides was carried several hundred feet down the beach. Thus Todd, well known here and at Forest Grove, then came to the assistance of Olson, and as Todd is a powerful swimmer he soon had the body ashore. Dr. Hawke worked with the body for two and a half hours when Mrs. Whitesides passed away. The physician states that there is little doubt that heart failure, following the shock and fright, was the real cause of death.

J. J. Kerbs, formerly of this city, is judge of the peace at Rockaway, and took charge of the body as assistant coroner. He stated that no inquest was necessary.

The body was shipped to Portland this evening, and interment will be at Cedar Mill.

Mrs. Whitesides was formerly Miss Lulu Hieckethier, and she was a daughter of Charles Hickethier, civil war veteran, and for many years a resident of the Cedar Mill neighborhood. She is survived by her husband, who is a Portland patrolman (and who is now suffering from a bullet wound inflicted upon him by Andrew Holman, who was quarreling with Al Graman, a taxi driver); her two daughters, Edna, aged 15 years, and Marie, aged 13; her father and three brothers, of Cedar Mill.

Mrs. Whitesides was aged 57 years, and was reared in the Cedar Mill neighborhood.

She was highly respected. Mrs. Whitesides and daughters had been at the beach since Friday.

ENGINEERS START ON ROAD SURVEY

Tillamook County Falls Into Line for New Highway Route

GALES CREEK AND WILSON

State Will be Asked to Pay Half and Two Counties the Balance

Tillamook County now has a surveying crew in the field in an attempt to locate a new highway between Tillamook and Washington Counties, the proposed road to run up the Wilson River to the summit and then down into Washington County along the survey of the Gales Creek and Wilson River Railway. It is said that the route has no heavy grades as compared with other routes and between thirty and forty miles of travel may be saved. The route will leave the Tillamook line and pass through the Washburn timber holdings and enter the Gales Creek Valley above the Bateman place and with the grade promised by a preliminary on this side of the mountain the trip to Tillamook should be made in three hours of travel out of Hillsboro.

The court of Tillamook County will put an appropriation in the budget this Fall, and expects Washington County to do the same, and the state highway commission will be asked to designate the route as a market road, thus standing for half the cost of construction.

Less than a quarter of a million dollars is the estimated cost of the highway.

J. W. Bailey, of Hillsboro, was the first to run a line up to the low pass, and he states that a five per cent grade can be procured with no trouble.

The Tillamook County court is very anxious that the court from this county take action to join in the project.

CIRCUIT JUDGE HAS A VACATION

Judge Geo. R. Bagley in the Hayfield This Week, Reducing HIS ANNUAL REST IS WORK

Thinks Every Man Should Callous his Hands Occasionally

Circuit Judge Geo. R. Bagley is out for his annual vacation. There are vacations, and there are vacations, and all kinds of ideas as to what constitutes vacation. The court's idea of a vacation is to get out and emulate the man with the hoe for a week or two, or three, and he is always living up to his ideals. One year he hauls posts, and another year he hauls cordwood. This year he is out in the hayfield, and will turn his hand to wood hauling later, after the hay and grain harvest are completed.

Judge Bagley is some little old team all by himself when it comes to bucking cordwood on a truck, or pitching hay on a load, and he never sits in the shade as long as there is something to do.

When he completes his vacation he has a callous on every knuckle joint, a sweat band on his hat that registers for every day's work, and a reduction in avoidipus that is gratifying.

Some judges want to go to the beach or the mountains, but Bagley wants to commune with Old Man Work—and when he comes back to court he will feel like he has been in the trenches and fought the good fight.

The court says work is good for a man; that it tempers him for many moons; that it gives him a better idea of life; a better conception of that part of our world which hews wood and draws water—and acquaintance with work tends to make a judge more compassionate—although the court probably wouldn't stand for the conjecture.

William J. Hunter, expert radio man in the Navy, with station at San Diego, Cal., has sued his wife, Marguerite, for divorce. The husband alleges they were married at Los Angeles, July 5, 1920, and that shortly after marriage the wife wished to come to Portland and teach until the following January. While he objected he finally consented and expected her to return. When the time came, Mrs. Hunter wrote him that she would not come to him, and he says she wrote his commandant a letter, harpooning him. She told the husband that she could not live with him as long as he was under the restraint imposed by the terms of his enlistment—and so Mr. Hunter concludes he wants his freedom.

Mr. and Mrs. Art Gilmore and children have departed for an outing on the Tillamook coast line.
