We wish to thank all our friends and neighbors for their kindly assistance and sympathy in our bereavement, the loss of our little one, and return special thanks for the floral offerings.
Mr. and Mrs. John F. Meurer.

Very few April fool jokes were perpetrated last Saturday. One luckless wight who is in the habit of getting up before daylight and preparing his own breakfast, lighted his fire at 12:30 a. m. and made his coffee and toast, and was relishing his meal with gusto when his wife came downstairs and asked him if he were ill. He said no, not at all, but it was time all hustlers were up. When she retorted that it was only 12:30, he denied it and showed her his watch, which read exactly five o'clock. The timepiece had stopped Friday evening and he hadn't noticed it. This is the first case where a man worked his "April fool" on himself and yet enjoyed it.

Judge Bagley has filed an injunction suit against the city of Hillsboro, contending that the recent street improvement as contemplated and advertised, will be practically confiscation of his property, consisting of lots on Second street. A portion of the property is already assessed for the paving of Jackson street, and the case filed will probably be carried to the supreme court in case the local court goes against the plaintiff. An outside judge will be called to hear the case, as Judge Bagley, as a matter of course, would be disqualified to sit in judgment.

The Cost of Rotting Buildings now running into millions

ROTTING building is also a waste, because a small investment in paint will save it. A building that is not protected by paint must either be rebuilt or repaired in a few years at a costly figure.
Check the costs. Compare the prices of paint and lumber. Can you afford to bear the expense of rebuilding or repairing your home, when to save it costs so little?
When you paint, make an additional saving by using the best paint. It spreads easily—saves labor cost. It covers more surface per gallon than "cheap" paint.
But more important, the best paint serves five or more years longer than "cheap" paint.
