THE HILLSBORO ARGUS

County Official Paper

L. A. Long, Editor

Subscription, \$1.00 per annum

Issued every Thursday by Mrs. E. C. McKinney and L. A. Long

Entered at the Post Office at Hillsboro, Oregon, as second class mail matter.

The hope that Beer Lodge will be defeated at the November election is too far-fetched to be of interest to anyone who has watched the politics of his state. Lodge's state pays its skilled workmen in the wool and cotton factories less than they pay work people in the "nigger states" of the South—and they are satisfied in their poverty; satisfied with any condition, American or un-American, and a little thing such as who represents them in the U. S. senate is of little moment to the voter at large. The voter in Lodge's state is a fixed status.

Scientists have discovered the fourth vitamine. This is great. This being established, the Argus proceeds to uncover the fourth dimension, which, to be frank, is the editorial freak which is attempting to put the direct primary into the discard and at the same time takes itself seriously. This dimension has no individual existence, but runs in groups, with an invisible master. Parenthetically, the dimension is second cousin to the cuckoo.

Just why Charlie Hall doesn't tell us whether he has decided the momentous question—"to run or not to run"—so that we can adjust our sails is discouraging. Come on, Charlie, give us a hunch. This will relieve us and Ben, too.

Vaughn Wells, overseas veteran, now with the P. R. L. & P., Portland, was out this morning, a guest of home folks, the Chas. E. Wells family.

The angling season is at its height. Many good catches are being made. We are over-stocked on fly rods. They are now priced so that you can afford to throw away your old rod and replace it with one of these bargains.—Corwin Hardware, 1152 Second St.

WHEN SUMMER COMES!

Give me God's temples on some stream

—When Summer comes!

Give me the groves and waters clean

—When Summer comes!

The house is made for dulleards who

Can see no thrill in sunset's view

—When Summer comes!

Give me a springboard high in air

—When Summer comes!

Then let me cleave the waters there

—When Summer comes!

Nor take me back to boyhood days

That I may Nature's bounty praise

—When Summer comes!

Give me a pool to lave myself

—When Summer comes!

A place to dream—but not of self

—When Summer comes!

A place to sleep 'mid groves of pine,

Where stars gleam down—the world is mine!

—When Summer comes!

—The Deacon—June 22, 1922.

COUNTY AGENT NOTES

A number of inquiries have been directed to the office, asking what might be used on gardens to make a quicker growth on leaf crops, such as lettuce, spinach, etc. One recommendation which has given good results is to use nitrate of soda at the rate of one teaspoonful dissolved in three gallons of

water. Plants can be watered with this to good advantage. This nitrate of soda should be used according to directions because too much of it will damage the plants.
