## ORIGINALITY

in Advertising is Usually Distinctive

SKAGGS STORES entered the field of merchandising when practically all merchants belonged to the old School of "Special Sale", "Special Price" methods. It was then that SKAGGS originated a method that appealed to all classes--EVERYDAY PRICES Consistent with Cost. By our system of Consistent, Low, EVERYDAY PRICES we have built up a volume of business of which we have reason to be proud.

### Announcing that

## We Now Handle the Hudson Super-Six and the Essex

Our selection as Hudson and Essex dealers marks an important step forward for us as automotive merchants. We prize it as the highest recognition of worth.

For no company weighs a prospective dealer more carefully than the builders of these cars. Most important among their requirements is the ability to organize and execute service of a high character to owners.

### To Serve Two Great Cars

For buyers today consider not only the qualities of the car they get, but the character of dealer association they thereby form.

Yet it is true that no such dealer organization, as Hudson and Essex have built, could have been gathered about cars, that in themselves had not established a great public following, with abiding faith in their qualities.

The Hudson Super-Six is now in its sixth year as a leader among the world's fine cars. It holds its place rightfully by mechanical superiority, fine quality and appearance,

and by a price advantage that makes it the best value among fine cars, by a wide margin.

And you already know what owners say of the economy, long life and reliability of the Essex. Certainly no car of its price was ever so widely compared in essential qualities to costly fine cars.

It is our wish to pledge the public a service that in all respects will match the uniformly high character of Hudson and Essex service, and be in all ways worthy of these two great cars.

Senator Hare is preparing a bill and resolution calling for a vote on a constitutional convention at the November election in 1924. If it shall carry then a convention of delegates from each county equal to the house representation will be elected in 1926, and a new constitution formulated. Senator Hare is also preparing a bill that provides that all extension work of the state universities shall be paid for out of the millage tax, and this would make the medical school of the U. of O. supported in the same way. A digest of both bills will appear next week.

A wrecking crew came in from the S. P. yesterday morning and had quite a seance, loading three logs on a flat car, at North Range and Main Sts. The cars fell off a loaded car several months ago, and since that time have encumbered the right of way. If the company had given the logs away and paid the shipper, they would have been money ahead, as it cost a pretty penny to get the cargo aboard.

#### M. E. CHURCH

The following has been suggested as an excellent Sunday schedule for some Hillsboro families: Every member in time for breakfast not later than 8:30. Then the whole family goes to Sunday School at 9:45 and stay for the Junior church service at 10:45. At 11 they all sit together in one pew and hear the pastor preach on "How to Die to Live." They hear the benediction at 12 o'clock and dine at 1 o'clock.

In the afternoon at 3 the junior members of the family attend Junior Epworth League and at 6:30 the young people are at the church for Epworth League. When the 7:30 bell rings, all of the family except the very young are ready to help in singing the opening song at the evening service, and to listen attentively to a profitable discussion of the theme, "Knowing the Unknown." "A full day," you say. Yes.

full of benefits to yourself and others. Try it—it will make you happy.

The Church With a Friendly Greeting.—The Pastor.

#### PRUNING METHODS

A pruning demonstration will be held in the Scholls Community, Friday, January 26. The morning session will start at 10 A. M., at the Grange Hall, and will include a discussion by the County Agent on soil management and its relation to pruning practices. At 1 P. M. a pruning demonstration will be held on the farm of J. E. Bennett, in the Scholls community.

The five pruning demonstrations held thus far this year indicate a keen interest on the part of fruit growers when the size of the crowd is taken into account. Pruning practices have changed materially in the past five years, from the more severe heading back to a more moderate system of thinning. Co. Agent.
