

**JERSEY JEWEL HERD NOTES**

Elmer E. Watts, of the Jersey Jewel Dairy Farm, makes public the following items about his fine herd of Jerseys. Mr. Watts has been in the testing game for over a year and has some records to show which will be of interest to the dairy industry of Washington county.

Nancy Exile 3rd's Figgins completed her record with 15,900 lbs. of milk and 735.12 lbs. fat, which is the equivalent of 916 lbs. of butter, thus becoming entitled to a gold medal. This is some performance for an aged cow. She began test at the age of 11 years, a month, and finished by dropping her milk calves—big fellows, at that and of splendid type. These babies are the sons of Iota's 8th May.

Jersey Jewel's Alice qualifies for a silver medal by producing a total of 604 lbs. fat, with an average test of 5.96 per cent. She is a junior 2 year old, and also dropped twin calves by Iota's 8th May.

Tara's Susy Rossair (official figure not yet at hand) is the second daughter of Susy's 8th Mayes Lad to make a silver medal record. Both sire and dam, Waltz St. Mayes Poppy, are of Ed. Carey's breeding and he as well as Mr. Watts, will take pride in her record of 370 lbs. fat, with test running as high as 7 per cent. She is a senior two year old.

Captain Tristram's Poppy, a senior yearling, was sired by Captain Tristram and dropped by St. Mayes Spaza Poppy. She produced 320 lbs. of fat, with an average monthly test that ran as high as 7.7 per cent.

Vivian's Ruth, senior 3 year old, sire, Jersey Jewel of J. J. dam, Ruth's Vivian, a half-sister to Lad's Iota. She has been on test two months and made 140 lbs. fat, but through some oversight was omitted from the Honor Roll. In the 30 days she has produced 3100 lbs. of 6 per cent milk.

Jersey Jewel's Polly had the misfortune to cut her front udder badly on a barbed wire, during the first month of her test; but, in spite of this handicap, she made a record, on two tests, of 455 lbs. fat in 305 days, carrying a calf 309 days of that time. She was sired by Cynthia's Rossair and her dam was Pally of J. J. The sire was bred by Ed. Carey, and has a number of daughters with big records.

Sageon's Javelin, a promising two year old, has been on test since October 8, 1922, and has milked as high as 48 lbs. in one day and has made 215 lbs. of fat in the four months of her test. Her bull calf is one of the best bred animals in the state, being backed by four cows whose records will average over 1000 lbs. of fat in one year. He is a gold-typed calf ever bred in this herd. His grandfather is Sophie's Agnes Son, at present in the herd of Mrs. Vincent Aster, of New York.

Mr. Watts has a number of granddaughters of Lad's Iota that will freshen soon, and they are an exceedingly fine bunch of heifers of remarkable promise.

**METHODIST CHURCH**

"Hello Jim!"

It's me writin' again. I guess I'm writin' about as regular as a fellow that's in love. Seems like I don't do nothin' 'cept come an' go an' eat an' sleep an' write letters. Last nite a bunch of us fellers was out to a noodle supper at Missus McCormack's. You should 'a seen that Red Grable eat. For once he didn't have a word to say. You sure ought'a get away from that stale old city of yours and see some real life. After supper the Hustlers' orchestra practiced on 'em they sure needed the practice, but I'll bet they will be a houndin' when they get through practicing.

You know I'm singin' with the Junior choir; now an' we're preparin' an' Easter Cantata. My, but it's beautiful. Hope you can come over on Easter. Come over in time for the Sunrise Service an' the breakfasts an' the Sunday School program an' everything. Our minister announced that some babies was going to be christened, too. You ought to bring your baby sister along an' have a regular feller christen her.

I most forgot about that Lovin' Cup, well it's going to be given next Sunday. I don't think we'll get it cause Slim's pa wouldn't come an' two of the fellers wasn't there. The secretary said it was the biggest attendance we'd had for ten years.

Mrs. Wire, who just come home from China, is going to talk Sunday morning and the Foreign Missionaries get the collection. I sure hope it's a big one, for they need it. At nite Rev. Jasper is goin' to show some pictures and talk on the Development of Life. He's a Sunday School man, I guess.

Why don't you never write? I suppose it's because you haven't anything to write about, but I wish you'd write just the same.

As ever your pal,  
Maurice."

**G. R. NOTES**

Slogan, "To Face Life Squarely." Purpose, "To Find and Give the Best."

The Girl Reserves who are a part of the Y. W. C. A., were organized in 1918. The object of the Girl Reserve movement is to provide those ideals and convictions which help a girl to live as a Christian of her age should, and to aid her to put into practice in her community her standards of Christian living.

The insignia of the Girl Reserves is a blue triangle and it should mean to every girl that it wears it the symbol of the highest type of service for God and her country. The base of the triangle stands for spirit; the sides for health and knowledge.

There are Girl Reserves in all parts of the world, and although the organization is only four years old there are 160,000 members. The Hillsboro club has 32 members, and all high school girls are welcome to join.

At the last meeting, which was held on February 13, the health side of the triangle was emphasized. All the girls of the high school were invited and the short program was enjoyed. Dr. Rossman gave a very interesting talk on teeth and their care. Candy was served at the close of the meeting.

The recital was a rare treat to music lovers, as attested by the applause given the numbers. Miss Taylor's technique was wonderful and her elocution was a revelation to all. As service goes, Hillsboro is perhaps blest with as good water as any city in the northwest, it being the equal of Bull Run aqua.
