The National Used Car Buyers Service announces IT'S REPRESENTATION

In Hillsboro

Heralded as the greatest achievement in modern methods of merchandising USED CARS, the NATIONAL USED CAR BUYERS SERVICE is coming to your city—to bring to you a definite plan of buying used cars, national in its scope,—with uniform standards of representation, workmanship and guarantees. It will relieve Used Car Buyers of the element of chance and guesswork. It will put an end to unscrupulous methods of merchandising. It will guide your judgment in the selection of a car that will be worth all you are asked to pay for it. It will protect your investment in more ways than one.

This NATIONAL SERVICE is a new principle,—a correct one—constructive, upbuilding and permanent. It is an exclusive service to be used by one dealer only in your city—the sort of a dealer whom we have selected because of his moral and financial ability to fulfill the high standards of regulations established by this National Organization.

The policy of this service will appeal to you because it recognizes your desires. No matter how wise or unwise you may be in motor car knowledge this national plan is so clean, open and frank, so appealing in its get-up, so conclusive in its proof that the most sceptical and cautious must admit the security and protection it offers to ANY buyer of ANY car sold under this plan.

Think, if you will, just what you would like to know about a used car if you were in the market for one. Jot down the requisites you would demand—before you bought and after you bought. Be as careful as though you were investing your five years earnings, keep these thoughts fresh in your memory and compare them with the plan which we will publish later. You will find that our plan is the actual fulfillment of your desires—that is why we call this the

NATIONAL USED CAR BUYERS SERVICE

The success of any thought or idea depends entirely on the doing of it. That is why we have studied the local field of automobile dealers to determine the most desirable to operate and use the

NATIONAL USED CAR BUYERS SERVICE

The volume of business or net profits that a dealer makes does not interest us nearly as much as does his reputation and desire to do the right thing—plus his financial ability to keep faith with his clients. After careful investigation, and recommendations from leading business men, bankers and those engaged in automotive trades we are glad to announce our selection of the

Buick Motor Sales Co.

BUICK DISTRIBUTORS

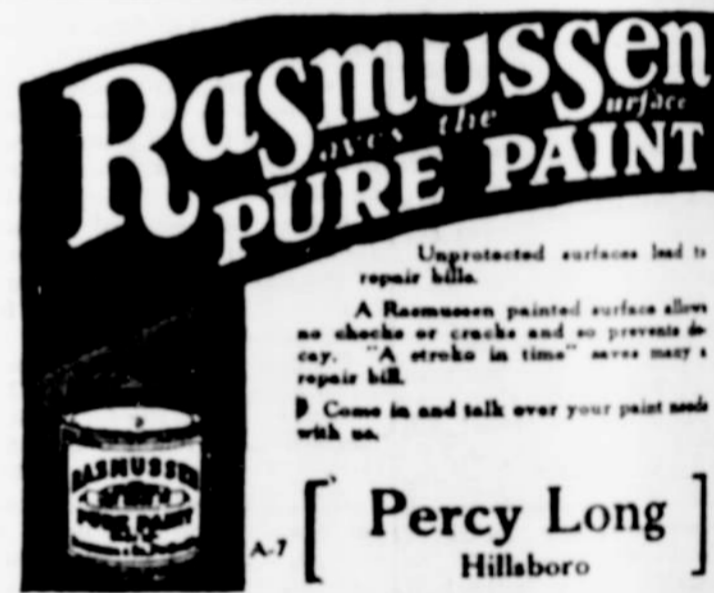

"Getting a 'half-Nelson' on a good thing," is the way Mr. Peterson put it when he took over our plan, and we in turn feel just as enthusiastic in our selection of Mr. Peterson, head of the Buick Motor Sales Co.

While most dealers hold strange ideas about the sort of ethics that are necessary to make the Used Car business pay, Mr. Peterson decided that this business was no different in its problems than any other, and he for one would upset the dope by tying up tight to old man "Golden Rule." Mr. Peterson has laid the correct foundation as evidenced by the hearty support and rapid growth of his business in this district.

We find the spirit of co-operation permeating the entire organization—team work—if you please, has made possible the fulfillment of Buick Motor Sales Co. standards. And now has come, to still further enhance and inspire confidence in this organization, the new-day system of merchandising Used Cars.
