Wheat Has Much Smut This Year

Copper Carbonate Gives Control Of Smut In This State

(O. T. McWhorter)

A representative of a Portland firm dealing in grain reports that wheat from certain parts of the county has contained as much as from five to seven per cent smut this year. This representative called the county agent's attention to the fact that copper carbonate is giving splendid control of smut in this state, and suggests its use in Washington county for the control of smut of wheat.

Naturally the grain firm which this man represents wishes to buy wheat which is free from smut and is interested in seeing all seed wheat properly treated for this disease.

Smut control of cereals is so generally practiced in the county that it is rather surprising that five to seven per cent smut should be found in two of the wheat growing sections of the county.

The faculty members of the Hillsboro schools were honored at a reception given for them by the ladies of the Coffee club and the members of the chamber of commerce at the high school gymnasium Friday night.

Those in attendance sang "America" to start the program. The teachers were welcomed by Mayor J. B. Trullinger, Mrs. M. B. Signs, president of the Coffee club and R. Hope to Start Six Team Volley Ball League

The membership will cost \$2.50 and this money will be used to defray the expenses of the gymnasium and of buying additional equipment. The association is to have a woman demonstrator to show honey in the daily diet. NEW THEATER WILL BE BUILT AT ONCE

Structure Will Seat About 800 Persons

WILL HAVE FULL STAGE

Manager Phelps, Pioneer in Movie Business in City Started in 1908

The construction of a new moving picture theater that will seat approximately 800 persons will start immediately, according to an announcement of O. Phelps, owner of the Liberty theater. The building as planned means an investment of more than \$25,000.

Plan Full Stage

It will be constructed on the site of the present Liberty theater and will have an auditorium of about 60 by 100 feet. This will give a full stage with dressing rooms. The building will be completely new and will be constructed in such a way that it will not be necessary to shut down just for a short time. The new structure will be fireproof. A new heating and ventilating plant will be installed.

Mr. Phelps is the pioneer in the moving picture business in Hillsboro and he opened the first theater here in 1908. It was a wooden structure seating 108 persons and was located in the present location of the Hillsboro Argus. From this building he opened up in the Crescent theater.

Present Capacity 500

In 1912 he opened up in his present location with a seating capacity of 270. He remodeled the building in 1915 and increased the capacity to 500.

The present capacity of the theater is sufficient for the needs now, but Manager Phelps is laying all of his plans for the future growth of Hillsboro, and with the view of giving more comfort to his patrons. Mr. Phelps has done much for the city in an amusement line, and is continually improving his service in every way.

Pipe Organ Company Incorporated

Is Only Concern of Kind North of Los Angeles and West of Chicago

The Wm. Wood Pipe Organ company was incorporated last week with a capitalization of \$25,000. Those interested in the company with Mr. Wood are R. L. Dunlap and L. B. Sandblast of Portland.

This concern is one of Hillsboro's most enterprising institutions and one that would prove of interest to anyone who might visit the plant on Washington street and see what it is doing. There is no other company north of Los Angeles or west of Chicago that is engaged in the construction of pipe organs. It is hoped to expand within a short time and possibly to build a new building.

A console has recently been completed in the plant and will be exhibited in Portland before being installed in a Rose City theatre. The amount of detail and work that is connected with the construction of an organ is great.

William Wood, who heads the corporation, has been in the work for 15 years, one year of this time in Hillsboro where he has constructed the Liberty organ and many others throughout the Northwest. Before that he had a company in Sellwood and for a number of years was with Jensen and Von Herberg in Portland.

Many who are contemplating seeding alfalfa in 1925 will use one ton to three thousand pounds of lime per acre.

China pheasant occupied the place of honor on the menu, the birds having been shot by members of the club the day before, which was the opening of the season, and there was ample for all.

The program which followed the dinner held the interest of those present. A kangaroo court netted a considerable amount. Harry Hill acted as judge, Glen Stapleton and O. Phelps as policemen. DETERMINE HIGH SCHOOL SENTIMENT

Forest Grove Favored by a Large Majority

MANY HEAR ARGUMENTS

Frank Sholes Clearly Had It Over Opponent in Debate Over Union Question

By a vote of 121 to 49 the voters of Cornelius (school district No. 2) expressed sentiment in favor of affiliating in the organization of a union high school district with Forest Grove at a mass meeting in Challacombe hall, Cornelius, last night.

Mass Meeting Called

The mass meeting was called by a number of Cornelius citizens who were interested in finding just how the voters stood, and in order to have a fair presentation of both sides, Hillsboro and Forest Grove, each of them desiring to bring Cornelius into their district. More than 250 persons heard the arguments.

Ray P. Shaw represented Forest Grove and Frank Sholes talked in favor of Hillsboro. The arguments did very little good, however, for it is the opinion that the minds of the voters were made up before they wouldn't have voted that way. They wanted to go to Forest Grove. Frank Sholes clearly and concisely presented the side of Hillsboro from the view of economy. Mr. Shaw, in his talk, made promises as to what would happen if they went to Forest Grove, but failed to pin anything down to brass tacks on what would actually happen.

Schools to Pay Respects to Dead

Hot Lunches Now Being Served In Grade Schools. More Than 500 First Day

Honor will be paid in all grades to the memory of Frances E. Willard on Friday, October 24, and to Theodore Roosevelt on Monday the 27th.

The arrival of a projector lantern capable of showing slides in daylight has increased the efficiency of the science department. Its use will gradually be extended to include other departments whenever suitable slides are available.

The hot lunch is now an established fact at the grade school. Forty children and half the faculty were served on Wednesday, the first day of the service.

The Blue H candy sale last week netted \$23 toward the gas heater the club is installing in the gym to supplant the present hot water system. Since the organization of classes in physical education, it has been difficult to supply enough hot water for the domestic science work in the gymnasium.

Progress With Jail

Three Weeks Will Complete Modern Structure

Work is progressing rapidly on setting up the county jail on the third floor of the courthouse, in the part formerly occupied by the county agent. It is expected that it will be erected by Saturday.

It will take three weeks to complete the work according to O. A. Bauman, who is in charge of the work. The heavy steel construction will give the county a jail that very few will be breaking out of and one that it is similar in construction to the Portland jail.

HILHI WINS OVER ALBANY 12 TO 0

Shorty Long Makes Long Gains For Points

TEAM IS WELL ORGANIZED

Goodman's Men Praised for Ability by Coach of Freshmen at College

Hillsboro high school football team took another step forward in its victorious march to a championship when it defeated the fast Albany high eleven at Albany Friday 12 to 0. It was Irwin "Shorty" Long who carried the ball for Hillsboro over the Albany line for the two touchdowns.

Team Is Praised

That the Hillsboro team was the best high school eleven he had seen in action in many years was the opinion expressed by Ralph Coleman, varsity baseball coach at Oregon Agricultural college and assistant freshman football coach, who refereed the game.

The two teams battled back and forth in the middle of the field throughout the first half, which ended 0 to 0. During this time the Albany goal line was threatened once and Hilhi got to within two yards but was thrown back by a stubborn defense.

Hilhi's first touchdown came in the third quarter when "Shorty" Long received an Albany punt on their 40-yard line and ran over for the first counter. The Lynn county seat team had no look-in whatsoever in the rest of this quarter and the balance of the final period.

Everyone Stars

The second Hilhi touchdown came on a fake and a pass. Frost to Long, who went around left end for 15 yards. Hilhi failed to convert. Long, Jack Glascoe and Frost played outstanding ball for the locals. The entire team played together with such a snap and brilliance that one might safely say that they all starred. Coach Goodman is to be congratulated in putting out such a well trained aggregation. Albany with a much larger student body, is considered to have a very fast team and the boys did well to come out victorious.

Lineup Given

The lineup against Albany was composed of the following: Johnson and Ingles, ends; Stanger and Jack Glascoe, tackles; Staert and Kent, guards; Forney center; Frost, quarter; Lester Glascoe and Long, halves, and Goodin, fullback.

Frost at quarter used exceptionally good headwork in the way he ran the team.

The local team was especially pleased with the courtesies shown them by Albany and believe that the spirit shown them was remarkable.

A letter from the principal of The Dalles high school, in asking for a game there, says, "I have been following your games, and note that you have won most of them very decisively. Since you beat Albany on their own grounds, I feel that it will be necessary to eliminate you before we can later lay any claim to the championship."

A rousing high school assembly was held Monday noon in honor of the football team. The members of the team with the coach and assistant, offered some interesting version of a game and the students responded with hearty applause. The boys are unanimous in saying that the demonstration by the high school student body when the left Albany was largely responsible for the spirit with which they attacked their larger opponents, resulting in victory.

No doubt all Hillsboro is keenly alive to seeing the team in action on the home field against Newberg, Friday, at 8:30. An interesting evidence of the reputation the team has gained was an invitation to take on the O. A. C. Frosh team on Saturday. However, such an arrangement could not be entered into, considering the game on Friday.

Report Tax Receipts

Tax receipts for 1924 on personal and real property in the county are \$981,680.34, according to figures recently totaled in the sheriff's office. The amount set by the budget committee to be collected is \$1,092,886.93, leaving \$111,206.59 still to be collected.
