To the Farmers of Washington County:

We, the directors of the Washington County National Farm Loan association, are making long time loans to farmers at 5 1/2 per cent interest through the Federal Land Bank of Spokane, Washington. Other loan companies are making the assertion that they loan cheaper than the Federal Land Bank, but this is not so. The farmer that puts his loan with the other loan companies is only trying to keep in the old rut. This is the only act ever passed for the farmers. We get no compensation for our labor, only the satisfaction of knowing that we are helping our farmer friends and neighbors.
