## Sponsored and Named by General Motors

ONLY once in its 17 years of leadership has General Motors sponsored, named, and offered the public an entirely new six-cylinder car.

That car is the Pontiac Six—specifically developed to create a new basis of ownership in the field of low priced sixes.

That change in basis borders on the revolutionary. Once it was price. Now it is quality.

Once it meant the sacrifice of essential motoring virtues. Now it means their definite possession.

The Pontiac Six, companion car to the Oakland Six, is built and distributed by the Oakland Motor Car Co., Pontiac, Mich.

Once it meant the acceptance of mere transportation at a price. Now it means even more dependable transportation plus beauty, comfort, stamina, roadability, thrilling performance—all at a price so unexpectedly low that only the almost limitless resources of General Motors could possibly bring it about.

See the new Pontiac Six at the Automobile Show or in the salesrooms of Oakland-Pontiac dealers.

Then you will sense the pride with which General Motors inscribes this new name on the scrolls of the industry—Pontiac, "Chief of the Sixes".

C. C. FOLLETTE, Jr.  
Forest Grove, Ore.
