Automobile INSURANCE
Auto insurance of today is one of the most confusing lines of insurance written, and as not over 15 per cent of policy holders know that there are 14 different coverages in connection with auto insurance, in future issues of this paper I will explain, as there are many who do not know what they are insured for until they have a claim. This will also apply to any form of insurance. Read your policy, whether LIFE, FIRE, ACCIDENT, AUTO or any policy you may have, and if you do not fully understand what you are insured for, I will be only too pleased to explain your policy to you.
Auto Liability and Property Damage in next issue. There are no charges for this service, or will you be under obligation. My purpose is to save you from loss in case you are not covered for what you think you are.
