Is a Gas Saver

I have driven my Erskine Coach 8,000 miles, and during this time I have found it to be very economical in every way. On trips I have made 31 miles on a gallon of gas. One day, driving between Eugene and Corvallis, a distance of 52 miles, we only used 1 3/4 gallons of gas. We never average less than 26 miles to the gallon. In driving the 8,000 miles a wrench has never touched my car.

Today my car has just as much pep and snap as when it was brand new. My wife, daughter, and myself all learned to drive on this car and did not hurt it at all. It can be handled in the most congested traffic with perfect ease. It is with perfect confidence that I recommend the Erskine to anyone for any job—either business or pleasure.
