To the Farmers of Washington County: We, the Directors of the Washington County National Farm Loan Association, are making long-time loans to farmers at 5 1/2% interest through the Federal Land Bank of Spokane, Washington. Other loan companies are making the assertion that they loan cheaper than the Federal Land Bank, but this is not so. The Farmer that puts his loan with the other loan companies are only trying to keep in the old rut. This is the only act ever passed for the Farmers. We get no compensation for our labor, only the satisfaction of knowing that we are helping our Farmer friends and neighbors.

Harvest Is Made Easier By a Good Working Binder

There is no pleasure about harvest, but the day doesn't seem so hot or the labor so tiresome if you have a good working binder. The new McCormick-Deering contains all the best features of the famous McCormick and Deering grain binders. For many years these names have represented the best in grain binder construction. Now, in a single machine you can get the features that have made both binders famous. If you have not seen a modern grain binder recently, it would pay you to take the time now to look over the new McCormick-Deering. You will find many improvements in this machine that are not on your old binder.

When you buy a new binder it would pay you to get the widest cut machine you can buy. If you are now using a 6-foot binder, remember that an 8-foot binder will cut a third more grain in a day than the old 6-foot machine. This means all the difference between profit and loss when bad weather threatens.

We will be glad to show you the new McCormick-Deering binder if you will come in to our store.
