FARM LABOR CONSERVED

Electricity Pays for Itself in Two Years

New York's experience with electricity on the farm is that it pays for itself twice over... So announces R. F. Bucknam of the New York State College of Agriculture...

"That average," he said, "would pay the electric bill for nearly two years."

It was disclosed by this investigator that the electric iron was the most popular labor saving appliance in the home...

On the farm the most widely used electric appliance was the milking machine, followed by the shop motor.

Growth and development of the western Oregon livestock industry in the future will have to depend upon the growth of legumes more than upon any other single factor...

The other day I read two obituaries of men I had known well in their day. The stories were short...

Grapes - Sweetwaters and Red Mountain, 2 cents per pound; Concord, 4 cents; bring box and pick your own...
