A sleeper is one who sleeps. A sleeper is that in which a sleeper sleeps. A sleeper is that on which the sleeper which carries the sleeper while he sleeps runs. Therefore, while the sleeper sleeps in the sleeper the sleeper carries the sleeper in the sleeper over the sleeper under the sleeper until the sleeper which carries the sleeper jumps off the sleeper and wakes the sleeper in the sleeper and there is no longer any sleeper sleeping in the sleeper on the sleeper.—Ex.

Bounties from Oregon Rivers
Oregon rivers offer unsurpassed scenic beauty, the zest of sport, and the challenge of adventure. For our practical well-being, Oregon rivers give us food and game fish.
But in modern civilization fish are the least of the rivers' gifts.
From the Rivers Come
Water For Mining Water For Irrigation
Water For Manufacture Water For Lumbering
Water For Communities Hydro-Electric Power
Shall We Tie Up
Four Great Rivers
The aim of the water and fish bills is to prohibit the use of water from the Deschutes, McKenzie, Umpqua, and Rogue rivers and their tributaries for "any purpose whatsoever," except fish propagation, covering one-fourth of the state and one-half the undeveloped water power.
These bills stop development and progress. VOTE NO!

the new Hotpoint Electric Range-

so simple and safe a child can use it

With the children studying home economics in school and eager to cook at home, it is imperative that you have a modern electric range in your kitchen.

The new Hotpoint makes baking and cooking an assured success before you begin . . . for all the guesswork becomes clockwork. Charts presented to you with the range show exactly what heat to employ and for precisely how long. Then you set electrical attachments to do the work.

The 1929 all-white porcelain enamel Hotpoint brings a luxury you would have considered impossible a few years ago. An electric light to shine directly into your cooking pots . . . a smokeless broiler . . . a utility drawer to put the broiler and knives and forks into . . . (think of the steps saved there!) . . . a three-cup percolator with outlet on range . . . a white enamel clock . . . white salt and pepper shakers . . . automatic heat control. Almost a complete kitchen cabinet in your range! And the new speed units make quick cooking a joy!

Until November 17th, the new Hotpoint will be installed on THE MOST CONVENIENT TERMS WE HAVE EVER OFFERED
