FOOD EXPERT

Will Be at Health Food Store ALL DURING WEEK JAN. 7 to 11

MISS RAVEN, food expert connected with The Battle Creek Food Company is conducting a special food demonstration at 1158 Main Street, opp. Court House.

When questioned as to the value of certain foods in extremely hot weather, she said that it wasn't work that caused that tired feeling, but usually lack of endurance caused by poor condition of the blood caused by improper diet.

"Trees, flowers and other green growths, reflect the soil in which they grow," Miss Raven continued, "and we humans reflect in like manner the foods which we eat in the condition of our health and development."

"Under-capacity for work is the greatest cause for fatigue, far greater than overwork." Miss Raven, through training in Battle Creek Diet System Methods coupled with her experience in conducting food demonstrations has made her truly a specialist in her line. She has helped many to choose just the foods they needed to reduce comfortably; to end constipation; to build good, rich blood; to

build up their weight to normal and other needs. She will be on hand at Health Food Store during the week, ready and willing to answer questions on dieting and proper combinations of foods.
