

Many Present For Joint Installation

Kinton, January 10.—Saturday was a very busy day with the local grangers and over 100 were in attendance at the joint public installation of Scholls and Kinton granges. The officers, recently printed in this column, were installed by Mrs. Ida Gustin and her team from Tigard grange. Washington county granges were well represented there being members from Hillsboro, North Plains, Beaverton, Tigard, and Scholls granges present. At the business meeting one new member was taken in by card and there are prospects for a number of new members to be taken in during the coming year. A chicken dinner was served at noon to 90 grangers.

Mr. and Mrs. Walter VanKleeck and daughter, Miss Kathryn Stelen, of Beaverton spent last Monday and Tuesday at the home of Mr. and Mrs. J. J. VanKleeck.

About 25 of the old neighbors of Mr. and Mrs. E. L. Cox walked in on them last Wednesday evening with their arms laden with many good things to eat. It was a genuine surprise to Mr. and Mrs. Cox. A lunch was served later in the evening.

Friday evening, January 18, is the date set for another good time to be held at the grange hall. It will be a "Novelty Basket Social." You buy the novelty in the basket and the lunch is thrown in free. There will also be a fine program. The affair is sponsored by the grange.

Friday evening, January 18, is the date set for another good time to be held at the grange hall. It will be a "Novelty Basket Social." You buy the novelty in the basket and the lunch is thrown in free. There will also be a fine program. The affair is sponsored by the grange.

The Ladies' Aid society is busy at their meetings. Last Thursday a comforter was tacked and another will be started at the next meeting which will be held here Thursday afternoon at the church. All other ladies in the community are invited to be present.

There was a very good attendance at the services held at the church Sunday. At the session of the Bible school several scholars were promoted to other classes and the election of officers resulted as follows: Vice President, S. H. Pomeroy, teacher; A. H. Dallmann, E. L. Cox, Mrs. Floyd Bierly, Mrs. Everett Wright, Miss Helen VanKleeck and S. H. Pomeroy, teachers. Mrs. C. W. Young, superintendent of the cradle roll. Finis Brown, who is president of the Sunday School association of this district, was present and gave a talk about his work among the schools. At the close of the preaching service, Mr. Brown gave a vocal and instrumental solo. A New Year's basket dinner was served at noon.

The next session of Pomona grange will be held with Tigard grange, January 23.

New Year's eve passed off very quietly in this community. A number of neighbors and friends of Mr. and Mrs. J. R. Daniels spent the evening very pleasantly at their home, the chief diversion being "500."

Mrs. Lilly Bierly and daughter, Mrs. Ethel McCormick, and children of Hillsboro, were at their Kinton home and called on relatives and friends Sunday afternoon.

A number from here will probably attend the quarterly conference of the Evangelical churches for the district at the West Portland church Friday evening.

Mr. and Mrs. S. A. Taylor and son, Bobbie, of Portland, spent Monday and Tuesday at the home of Mrs. Louise VanKleeck.

Mr. and Mrs. Floyd Williams and

family of Clackamas and Mr. and Mrs. Alfred Richards and family of Portland were guests last Sunday at the home of Mr. and Mrs. Harry Richards.

S. H. Pomeroy was in Portland last Wednesday.

A meeting of the finance committee of the grange which is composed of Kirk Hoover, J. C. Snider and E. L. Cox was held at the home of Mr. and Mrs. Charles VanKleeck last Monday and the books were balanced.

Guests Sunday at the home of Mr. and Mrs. Kirk Hoover were Mr. and Mrs. Rollin Myers of Scholls, Mrs. Sam Malehorn and Mr. and Mrs. Thomas Cullen of Portland.

Mr. and Mrs. Henry Honeyman of Hillsboro were visitors recently at the home of Mrs. Julius Wedeking.

The following guests have been entertained at the home of Mr. and Mrs. F. J. Holboke during the past week: Mr. and Mrs. M. F. Welter and daughter, Jean, of Timber; John and Tom Serres and Miss Annie Serres of Oregon City; Mr. and Mrs. Henry Holboke and family of Portland and Mr. and Mrs. Charles Bernard and family of Beaverton.

Mr. and Mrs. A. V. Horn of Haines, were Sunday guests of Mr. and Mrs. W. G. Hall.

Mr. and Mrs. Arthur Larkin of Scholls were guests last Tuesday of Mrs. Larkin's sister, Mrs. J. S. Snider.

Mr. and Mrs. Finis Brown of Laurel were present at the services held at the church Sunday.

Buster Keaton, in "The Cameraman," his new Metro-Goldwyn-Mayer feature comedy, in which, as an apprentice newsreel cameraman in New York he figures in one of the most strenuous and hilarious adventures in his career, is the attraction at the Venetian theater Friday and Saturday.

The story is a rapid-fire series of comical troubles in which Keaton, as a "green" cameraman with an ancient and dilapidated "box," seeks to film the swirl and bustle of New York.

NEW STYLES Black and Tan

Simplicity of cooling system is a feature of the new Ford

A COMPLETE water plant is a part of every automobile as it is a part of every modern city.

The purpose of this water plant is to keep the engine cooled to a temperature that will make it efficient in operation. If it were not for this, the cylinder walls would become overheated and the pistons refuse to operate.

The cooling system of the new Ford is particularly interesting because it is so simple and reliable.

When the radiator is full of water, the engine of the new Ford will not overheat under the hardest driving. Yet the water is so regulated that it will not impair engine operation by running too cold in winter.

The cooling surface of the Ford radiator is large, with four rows of tubes set in staggered position so that each receives the full benefit of the incoming air. The fan is of the airplane propeller type and draws air through the radiator at the rapid rate of 850 cubic feet per minute at 1000 revolutions per minute of the motor.

The hot water around the cylinder head is drawn to the radiator to be cooled by a centrifugal water pump of new design.

The entire cooling system of the new Ford is so simple in design and so carefully made that it requires very little attention.

The radiator should be kept full, of course, and drained once each month so that sediment will not collect and retard the free passage of water. In cold weather, a reliable anti-freeze solution should be added.

As owner and manager of this important water plant you should also see that the water pump and fan shaft are properly lubricated and the packing around the pump shaft kept in adjustment.

Hose connections may also need replacement after long service. For those little adjustments, it pays to call on the Ford dealer.

He works under close factory supervision and he has been specially trained and equipped to do a thorough, competent job at a fair price.
