Comedy and Pathe News

Quality First

CLOTHES don't make the man, but a good appearance does have a lot to do with success in business. Most folks have learned that it costs no more to be properly dressed than it does to be careless or "freakish." If we could find out just what effect our appearance has on others, we'd probably discover that it pays big to be particular.

* * *

What is true of personal dress is true of the printed matter that presents you or your firm. You can't afford to use letterheads, invoices, statements, receipts—or even office forms—that look "cheap" or poorly printed. It pays big to be careful about such little things.

* * *

We believe that all of your stationery and office forms ought to be printed in the same shop, and at the same time, if convenient. Then they will be harmonious in design. If we produce them they will be fitting representatives of your business or professional standing.
